Dear Voter:

The Voters' Pamphlet is the state's strongest and most visible symbol of commitment to the democratic voting process. Since 1903, the Voters' Pamphlet has helped Oregonians make informed choices for their future.

This pamphlet provides you with information on candidates and the one measure referred to the voters by the 1991 Legislature. It also contains information about absentee ballots, accessibility of polling places for elderly and physically disabled voters, and voter registration.

You must be registered by April 28 to vote in the Primary Election. Please read the Voters' Pamphlet carefully and cast your vote on Tuesday, May 19.

Best,

Phil Keisling
Secretary of State

INFORMATION

GENERAL

Your official 1992 primary election Voters' Pamphlet is divided into separate sections for measures and candidates. Page numbers for these sections, as well as for the alphabetical index of candidates, are listed under the table of contents on this page.

Material in the measures section includes each state ballot title, the complete text of the proposed measure, an impartial statement explaining the measure and its major effect and any arguments filed by proponents and opponents. Where applicable, the ballot titles and complete texts of certain county and district measures also appear in this section. Oregon law requires the Legislature to submit one argument in favor of each measure it refers to the people. Citizens or organizations may also file arguments on measures by purchasing space for \$300 or by submitting a petition signed by 1,000 voters. The Secretary of State may not accept any argument which is not accompanied by the specified fee or the requisite number of signatures.

In the candidate section, partisan candidates appear before nonpartisan candidates. All space is purchased; statements and photographs are submitted by the candidates or their designated agents. The information required by law—pertaining to occupation, occupational background and educational background and prior governmental experience—has been certified by each candidate. Some columns are blank because Oregon law does not allow the placement of material relating to candidates for different offices on the same page of the Voters' Pamphlet.

Miscellaneous voting aids, including district maps, precinct and polling place lists, voting instructions, a complete list of state-certified candidates, and absentee ballot application forms, follow the candidates section. Another page, "Voting Accessibility for Elderly and Individuals with Physical Disabilities," contains information about provisions made for elderly or physically disabled voters.

The Voters' Pamphlet has been compiled by the Secretary of State since 1903, when Oregon became one of the first states to provide for the printing and distribution of such a publication. In 1909, the Legislature passed a law requiring pamphlets to include information on candidates.

One copy of the Voters' Pamphlet is mailed to every household in the state. Additional copies are available at the State Capitol, local post offices, courthouses and all county election departments.

Measure No. 1 STATE OF OREGON

HOUSE JOINT RESOLUTION 27-Referred to the Electorate of Oregon by the 1991 Legislature, to be voted on at the Primary Election, May 19, 1992.

BALLOT TITLE

1 AMENDS OREGON CONSTITUTION: FUTURE FUEL TAXES MAY GO TO POLICE

QUESTION — Shall Oregon's Constitution be amended to allow use of future fuel tax increases, vehicle registration surcharges for policing of roads?

YES

NO

SUMMARY — Amends Oregon Constitution. The Constitution now limits use of motor vehicle fuel taxes and vehicle registration fees to construction and maintenance of public roads and roadside rest areas. This change would allow use of revenues from future fuel tax and registration fee increases for policing of public highways and roadside rest areas. New uses allowed only if taxes or increased fees are dedicated to that purpose. This change would not affect any taxes or fees levied or imposed before January 1, 1993.

Be It Resolved by the Legislative Assembly of the State of Oregon:

PARAGRAPH 1. Section 3a, Article IX of the Constitution of the State of Oregon, is amended to read:

Sec. 3a. (1) Except as provided in [subsection (2)] subsections (2) and (3) of this section, revenue from the following shall be used exclusively for the construction, reconstruction, improvement, repair, maintenance, operation and use of public highways, roads, streets and roadside rest areas in this state:

(a) Any tax levied on, with respect to, or measured by the storage, withdrawal, use, sale, distribution, importation or receipt of motor vehicle fuel or any other product used for the propulsion of motor vehicles; and

(b) Any tax or excise levied on the ownership, operation or use of motor vehicles.

(2) Revenues described in subsection (1) of this section:

(a) May also be used for the cost of administration and any refunds or credits authorized by law.

(b) May also be used for the retirement of bonds for which such revenues have been pledged.

(c) If from levies under paragraph (b) of subsection (1) of this section on campers, mobile homes, motor homes, travel trailers, snowmobiles, or like vehicles, may also be used for the acquisition, development, maintenance or care of parks or recreation areas.

(d) If from levies under paragraph (b) of subsection (1) of this section on vehicles used or held out for use for commercial purposes, may also be used for enforcement of commercial vehicle weight, size, load, conformation and equipment regulation.

(3) Revenues described in subsection (1) of this section may also be used for policing of public highways, roads, streets and roadside rest areas in this state if the revenues result from a tax or excise levied or imposed on or after January 1, 1993, that is specifically dedicated to that purpose and that is additional to any tax or excise described in subsection (1) of this section that is in effect on the effective date of this subsection. An agency may not collect any registration fee surcharge upon registration or renewal of registration of a motor vehicle if moneys from the surcharge are statutorily

dedicated to policing activities unless the surcharge is imposed by a law that is enacted after January 1, 1993.

PARAGRAPH 2. The amendment proposed by this rejection shall be submitted to the people for their approval or rejection at a special election held throughout this state on the same date as the next regular primary election.

EXPLANATORY STATEMENT

Section 3a of Article IX of the Oregon Constitution deals with permissible uses of revenues derived from motor vehicle fuel taxes and from taxes and excises imposed on the ownership, operation or use of a motor vehicle, including motor vehicle registration and titling, and issuance and renewal of driver licenses and permits. Such revenues may be used only for purposes such as highway construction, reconstruction, improvement, repair, maintenance, operation and use, for related administrative expenses and for the retirement of related bonds. In addition, moneys from taxes or excises levied on specific vehicles may also be used for specific purposes related to those vehicles.

This measure would amend Section 3a, Article IX to allow revenue from taxes on motor vehicle fuel and from taxes or excises levied on motor vehicle ownership, operation or use to be used for policing of highways, streets, roads and roadside rest areas. This use would be allowed only if the revenues result from a tax or excise that is specifically dedicated to these purposes, that is levied or imposed after January 1, 1993, and that is additional to any tax or excise already in effect on the effective date of the measure. The measure itself imposes no taxes. If a new tax or excise meets the specified criteria, the revenues may be used exclusively for these policing activities.

Measure No. 1 STATE OF OREGON

ARGUMENT IN SUPPORT

INCREASE OUR HIGHWAY SAFETY OPTIONS

Safety on our highways is a major concern for all Oregonians. Even with some of the toughest laws in the country, Oregon continues to rank among the top 20 states in fatal accidents. One factor contributing to highway safety problems is inadequate law enforcement.

Prior to 1980, state highway patrols were funded through gas taxes and vehicle fees, including truck taxes. A constitutional amendment passed that year removed highway patrol from this traditional source of funding. Since then, highway patrol dollars have come from the General Fund. Competition for General Fund dollars has stiffened and allocations to the State Police have not been nearly adequate. Since 1980, patrol division staffing has decreased by 223 positions, and patrol hours have been cut in half. These dramatic declines came over the same years that saw a 22% increase in the licensed driver population and a staggering 40% increase in vehicle miles travelled in the state. These are startling trends.

Over 7,000 persons have lost their lives on Oregon highways since 1980, and the cost of traffic accidents is estimated by the State Police to have exceeded \$8 billion! Two main contributing factors, drunk driving and speed, can effectively be reduced by increased highway patrols, along with education and strong sanctions.

Ballot Measure 1 will change the state constitution to allow all or a portion of fuel tax or vehicle fee increases to be used for highway policing, if the funds are dedicated to this purpose.

Ballot Measure 1 will not diminish existing funding for highway construction and maintenance. The measure was carefully written to protect existing fees for state and local highway uses.

Passage of Ballot Measure 1 will not automatically increase fees, but will allow dedication of fuel or vehicle fee increases to highway patrol. There will also be the ability to designate a portion of those increases to city and county traffic patrols.

We urge you to vote "yes" for Ballot Measure 1. Help return to law enforcement agencies the ability to enhance enforcement and safety through increased traffic patrols. Dollars invested can save both the cost of accidents and the lives of Oregonians.

(This Joint Legislative Committee appointed to provide legislative argument in support of the ballot measure pursuant to ORS 251.245.)

ARGUMENT IN FAVOR

For years, Oregonians have said we are willing to pay for police patrols if we are sure that's where our money is going. Ballot Measure #1 will give us that opportunity.

A "yes" vote on Measure #1 will allow future fuel and vehicle registration fees to be dedicated for patrolling roads. It also eliminates this funding from the income tax-supported State General Fund.

Measure #1 does not take one dime away from the Highway Fund dedicated to road construction and repair. This funding will continue with or without passage of Measure #1.

Since 1980, the number of Oregon state troopers patrolling the highways and secondary roads have been cut by over one-third. Why? Because police budgets have been cut in order to fund other less essential services. Now, there is not even enough money to maintain current, minimal police patrols.

Measure #1 gives us the opportunity to tell the legislature how we want our tax dollars spent. It makes sense to have all motorists on Oregon's roads—including those from out-of-state—help pay for enforcement of DUII and speeding laws through a fund dedicated to police.

This is our chance to stop further cuts in traffic safety and spread the costs among all who use Oregon's roads. A "yes" vote on Measure #1 is our chance to make Oregon a safer place to drive.

Measure No. 1 STATE OF OREGON

ARGUMENT IN FAVOR

Our organization is made up of Oregon State Police officers. We hope you will vote "yes" for Ballot Measure #1. Here's why:

- Budget cuts have forced the reduction of more than two hundred Oregon State Police Patrol Division officers since 1980. Less than 450 officers are left to patrol the entire state.
- Twenty-four hour coverage is impossible in many areas of the state due to the lack of officers.
- Aid to travelers has dropped by over 40 percent on secondary roads and over 20 percent on freeways.
- Drunk drivers and high-speed drivers are the major cause of traffic accidents, injuries and deaths. More officers are needed if we are to control violators who hurt law-abiding drivers.

In nearly every traffic safety service we provide, from helping stranded motorists to stopping the drunk drivers, our services are down dramatically. These services have decreased 25 to 50 percent in just over ten years, while traffic continues to increase.

This is not our choice. It is deeply frustrating to us. ~~We care about saving lives and improving traffic safety.~~ It's our job to help make the roads safer through law enforcement. We know that active, visible enforcement of traffic safety laws will reduce needless death and injury.

Before 1980, State Police patrol funding was paid by highway users. It wasn't part of politics as usual, as it is now. ~~Measure #1 would give us back dedicated funding that no one can tamper with.~~ We urge a "yes" vote on Measure #1 ~~so we can do our job—~~ protecting Oregon's drivers and passengers—the way it ought to be done.

ARGUMENT IN FAVOR

Your "yes" vote on Measure #1 gives us the chance to have not only good roads, but safer highways throughout Oregon.

The trucking industry depends on well-maintained roads and highway safety to deliver essential goods to Oregon communities. ~~We depend on visible law enforcement to not only protect us from drunk and reckless drivers,~~ but to insure that our own drivers are acting in a professional manner.

Over the last ten years we've seen a steady drop in the number of state troopers on Oregon's highways. During the same time, we've witnessed a dramatic increase in highway traffic.

All motorists benefit from the use of Oregon's roads. ~~It makes good sense to pay for road safety~~ as well as road repairs.

The Oregon Trucking Associations supports Measure #1. We know the money will be well spent and will not affect road construction and maintenance. Safety on our roads, however, will be insured through increased enforcement.

Vote "yes" on Measure #1 for safer roads.

Measure No. 1 STATE OF OREGON

ARGUMENT IN FAVOR

MADD supports Measure #1 to get the drinking driver off the road.

Oregon's Mothers Against Drunk Driving works to create positive social change by stopping drinking and driving and supporting victims of this violent crime. We support strict and consistent law enforcement, which is essential to reducing the tragedy of death and injuries caused by drinking drivers. About half of all traffic crashes in Oregon are alcohol-related. MADD strongly urges voters to support Ballot Measure #1.

Nancy Wolfe, MADD, State Chair

OSSOM supports Measure #1 to increase motorist safety.

As a high school student and president of the Oregon Student Safety On the Move organization, I think it's important to say that we support Measure #1. We think the state needs more police on our highways. OSSOM and other traffic safety groups continue to work for safer roads. But we can't reduce the incredible number of people who die or suffer terrible injuries on Oregon's roads without the police. We hope that voters will hear the voice of Oregon's youth and vote "yes" for Ballot Measure #1.

Maureen Caryl, OSSOM State President

OFP supports Measure #1 to reduce drug trafficking.

When enforcing traffic safety laws, police often catch major criminals, such as people transporting drugs, who travel through Oregon. A "yes" vote for Ballot Measure #1 gives us the power to increase budgets for police road patrols—support that has steadily declined over the last decade. We would like to have more police on the roads to help stop drug trafficking in our state.

ARGUMENT IN FAVOR

Ballot Measure #1 will let Oregonians decide when and how to pay for police traffic safety patrols to keep drunks and other dangerous drivers off the roads.

Last year in Oregon, more than 400 people died and over 25,000 were injured in car crashes. Traffic safety is an important issue. Without good traffic safety patrols, these needless injuries and deaths will continue.

The Oregon Medical Association believes that this is an unacceptable waste of human life, which Oregonians can do something about by voting "yes" on Measure #1.

We support Ballot Measure #1, because now is not the time to cut back on the number of police patrolling our highways. It is important for us to have an effective police presence to help reduce needless death and injury on our highways.

Join us in voting "yes" for Measure #1.

Measure No. 1 STATE OF OREGON

ARGUMENT IN OPPOSITION

THE COMMITTEE FOR GOOD OREGON ROADS

Before 1980, the Oregon Constitution allowed road user taxes to be spent for certain parks, police, recreational and historic purposes. Oregon roads were going to pot because of a lack of adequate funding. In 1980, Oregonians voted overwhelmingly to amend our State Constitution to require that our gasoline taxes be used for the roads upon which we drive.

City, county and state highway programs have benefited from this Constitutional provision. Motorists throughout Oregon have benefited. Overall, the roads, highways and bridges in Oregon are in better condition today than they were twelve years ago.

Now, on the heels of Ballot Measure 5, there are some that believe Oregon should use your road fund taxes to support general fund programs such as police and parks. Ballot Measure 1 asks you to amend the Oregon Constitution to allow funding of police from your future gas taxes. Later this year in the General Election, Oregonians will be asked again to amend the Constitution to allow fuel taxes to be used for parks. These amendments would undo what the majority of Oregonians decided in 1980.

**Keep Road Fund Taxes for Roads!
VOTE NO ON BALLOT MEASURE 1.**

ARGUMENT IN OPPOSITION

GOOD ROADS IMPROVE OUR QUALITY OF LIFE

A "no" vote on Ballot Measure One is a vote for improved mobility and a better quality of life in Oregon. As a result of constitutionally protecting the state's dedicated highway fund in 1980, Oregon has been able to accommodate a 35 percent increase in highway travel over the past 10 years by increasing highway investment by over 50 percent. This investment in our future continues to create jobs and stimulate economic growth.

With Oregon's population growing by approximately 1,800 residents a month, we need to insure the state's ability to provide safe and efficient highways. Road and bridge funding must be able to keep pace with the increased demands we are placing on the system.

By allowing state lawmakers to take motorist user fees — your gas taxes — away from road and bridge improvements, Oregonians could face the kind of gridlock that motorists face in Seattle. Clogged roads and bridges would result in longer commutes, higher prices for products and reduced traffic safety.

Vote "no" on Ballot Measure One and help ensure the mobility and quality of life we have come to expect Oregon.

Measure No. 1 STATE OF OREGON

ARGUMENT IN OPPOSITION

VOTE "NO" TO MAKE OUR HIGHWAYS SAFER

A "no" vote on Ballot Measure One is a vote for highway safety. In 1980, Oregonians voted to protect the state's dedicated highway fund constitutionally. Since then, Oregon's traffic accident rate has dropped by more than 31 percent.

Fatalities and injuries have also decreased since 1980. While Oregon's mandatory seatbelt law has prevented many injuries and deaths, so have the road and bridge improvements that were funded by the dedicated highway fund. Resurfacing rough roads can reduce wet-pavement accidents by about 20 percent and widening road lanes by just one foot decreases accidents by about 23 percent according to the Transportation Research Board.

As traffic demands on Oregon's road and bridge network grow, so must the funding to meet those demands. Ballot Measure 1 would allow state lawmakers to take motorist user fees — your gas taxes — away from needed road and bridge improvements. That would seriously impact highway safety in Oregon.

Improving Oregon's roads and bridges saves lives. Vote "no" on Ballot Measure 1 and help protect your investment in Oregon's highway safety.

ARGUMENT IN OPPOSITION

DEDICATED GAS TAXES SAVE OREGON MOTORISTS' MONEY

Don't turn back the clock to an era when Oregon failed to adequately maintain our road and bridge network. Vote "no" on Ballot Measure 1.

In 1980, the average Oregon driver spent an extra \$233 a year in wasted motor-fuel, excessive tire wear and added vehicle repairs because 70 percent of the state's most heavily traveled roads were substandard, according to The Road Information Program (TRIP).

By voting to protect the state's dedicated highway fund constitutionally in 1980, Oregonians substantially improved the condition of our roads. TRIP reports that over the past 10 years substandard roads in Oregon have decreased by 20 percent and, as a result, the annual cost to the average Oregon motorist has dropped to \$111.

But the job is far from done. Nearly 50 percent of Oregon's most heavily traveled roads are still substandard. With highway travel growing by 35 percent the past decade and with further growth forecast for the 1990s, Oregonians can ill afford to allow lawmakers to take motorists user fees — your gas taxes — away from needed road and bridge improvements. Vote "no" on Ballot Measure 1 and keep our gas taxes working for better roads.

in 1970 he was elected Secretary of State of California, the
only Democrat to win a statewide office as Ronald Reagan
won reelection and swept all other statewide Republicans
into office.

As Secretary of State, Brown drastically tightened, over the
opposition of the Democratically controlled legislature,
campaign disclosure laws. When the state legislature refused
to adopt more stringent reforms, Brown authored Proposition
9, a ballot measure that limited the amount lobbyists could
spend entertaining politicians, established a Fair Political
Practices Commission to police campaign practices in
California, and limited the amount of money candidates for
statewide office could spend. The spending limit was later
struck down by the Supreme Court.

Brown ran for Governor of California in 1974, in a race
where San Francisco Mayor Joseph Alioto, Assembly
Speaker Bob Moretti and State Senate Majority Leader
George Moscone were considered putative front-runners.

After winning the Democratic Primary, Brown went on to
defeat Republican Houston Flournoy in November.

As governor, Brown emphasized environmental protection,
development of innovative technology, and educational
reform. During his tenure in office, California became the
world leader in developing solar, wind and co-generation
technologies. He dramatically expanded the role of women
and minorities in state government, created the highly-
successful California Conservation Corps, which has trained
and provided 50,000 jobs for young men and women, and
established an office of Appropriate Technology for the state.
Decades after Steinbeck wrote about the horrible condition of
farm workers, Brown pushed through the legislature the
nation's first Agriculture Labor Relations Act, which gave
farmworkers the right of collective bargaining. Brown
expanded the role of state government yet reduced taxes and
vetoed billions of dollars in proposed spending.

Brown was reelected in 1978 by the largest margin in
California history. He received 1.3 million votes more than his
Republican opponent, state Attorney General Evelle Younger.

Twice while serving as governor of California — in 1976 and
in 1980 — Brown entered presidential primaries. In 1976 he
won several primaries, but entered the contest too late to
obtain enough delegates to win the nomination. His 1980
effort, against incumbent President Jimmy Carter, was also
unsuccessful.

Brown decided not to seek a third term as governor in 1982,
and instead ran for the U.S. Senate, losing to Republican Pete
Wilson, now California's governor.

Following his defeat Brown traveled widely in Mexico and
Asia, including living six months in Japan, and visited
political leaders in both China and the Soviet Union. While in
India, he worked as a volunteer with Mother Teresa at the
Home for the Dying and Destitute. Later, he briefly practiced
law and in 1989 was elected chairman of the California
Democratic Party, a post he resigned in March 1991 to pursue
a possible campaign for the U.S. Senate. During the summer
Brown announced that he was abandoning the Senate race,
even though polls showed him the front-runner, to explore a
possible campaign for President.

Our democracy has been taken over by a greedy and
incompetent Alliance — big campaign donors, lobbyists, and
corporate executives, who pay themselves 100 times more
than their workers whose jobs, pay and health care they have
sacrificed. Without shame they are driving America into
economic decline while they prosper at the expense of the rest
of us.

The Alliance survives because they are protected by the
Incumbent Politicians of both parties who betray the public
interest for the massive financial support re-election requires.
They are the Incumbent Party — whose first goal is re-
election.

This election is not just about changing Presidents. It is
about changing the country. America's critical problems can
only be collectively solved by the American people. Americans
— each of us — must take back our democracy and act to
change this country we love.

BILL CLINTON

OCCUPATION:
Governor of Arkansas.
OCCUPATIONAL BACKGROUND:
Lecturer, University of Arkansas School of Law, Fayetteville, 1973-74; Attorney for the firm of Wright, Lindsey & Jennings, 1980-82.
EDUCATIONAL BACKGROUND:
B.A. Foreign Relations, Georgetown University; Rhodes Scholarship, Oxford

University, J.D. Yale Law School.

PRIOR GOVERNMENTAL EXPERIENCE: Attorney General for Arkansas, 1976-78; Governor of Arkansas, 1978-80, 1982-present.

Dear Oregon Voter,

My candidacy is not just a campaign for the presidency, it is a crusade for change, a crusade to build an economy of empowerment and opportunity.

I believe that middle class Americans have borne the brunt of our tax burden for too long. They deserve to have their taxes lowered while those in the highest tax brackets have their's raised.

At the same time, incentives should be given to those willing to risk starting a new business or develop new technologies in these difficult times. My plan calls for a 50% tax exclusion for gains on investments held more than five years.

Instead of spending billions on fantasy defense systems like Star Wars, let's transfer these moneys to civilian R & D. Let's invest in our nation's infrastructure, in environmental technology and reliable systems of mass transit.

Education is economic development.

Investment in education is our most important investment in the future. Our people are our greatest resource and it is government's duty to provide them with the tools necessary to compete in an ever-changing world. Here's how we begin.

Provide preschool for every child who needs it.

Fully fund Head Start.

Strengthen our health education efforts. Let teens know the difficulties of being fifteen and pregnant. Let them know of the deadly effect of AIDS and how it's transmitted.

Create a national apprenticeship program to enable high school students who are not bound for college to enter a course of study, designed by schools and local businesses, to teach them valuable, marketable skills.

Make college an intellectual endeavor, not a financial obstacle.

Why are we the only industrialized country in the world that does not help our students obtain a college education? We place too high an emphasis on ability to pay rather than ability to learn and to grow.

Create a domestic GI Bill.

Establish a fund so that any American can borrow money for college. Students may pay it off either as a small percentage of income over time, or by two or three years of public service.

Restore reproductive rights.

Government must respect a citizen's right to privacy. If the Supreme Court overturned *Roe v. Wade*, I would act swiftly to codify into law the right of women to make their own reproductive decisions.

I would abolish the "gag rule" for federally funded family planning clinics the day I took office and in a Clinton Administration, pregnancy related procedures, including abortion, would be covered under the proposed national health care plan.

Eliminate the waste inherent in our health care system.

If present trends continue, by the end of the decade the U.S. will spend more than 17% of its GNP on health care costs, enough to consume the peace dividend and make it impossible to be fully competitive in the global economy.

The Clinton Health Plan has five main parts:

1. Guarantee universal coverage
2. Control costs
3. Concentrate on preventive and primary care
4. Expand long-term care
5. Intensify health education

I would also encourage creative new health care options, like a pilot program we began in Arkansas called ElderChoices. ElderChoices gives the elderly the right to take money previously available only for nursing home care and instead spend it on home health care, personal care, transportation to senior centers, hiring a nurse, or attending an adult day care center.

Regain our world leadership.

Our human potential is limitless if united and true leadership will tap into this great resource. Now, on the threshold of new century, we must heal the wounds of the last twelve years and make this country whole again. Together, we can realize our country's true strengths and our people's true capacity for growth.

EDUCATIONAL BACKGROUND: 1973 - John F. Kennedy School of Government (one semester); 1964-1967 Yale Law School, LL.B.; 1958-1962 Dartmouth College, B.A. Government.

PRIOR GOVERNMENTAL EXPERIENCE: 1978-1984 U.S. Senator, Commonwealth of Massachusetts; 1974-1978 U.S. Representative, Fifth District of Massachusetts; 1972-1974 Middlesex County Commissioner; 1969-1972 City Councilor, Lowell, Massachusetts.

"Paul Tsongas. . .[is] a person with insightful views of what's wrong with our economy and our society and good ideas about what to do. . . We've had plenty of experience with handsome public officials; we're ready for someone who put brains, wisdom, integrity, and action first. . . If we continue to elect presidents on the basis of the TV demeanor and on distorted and misleading 30-second campaign ads, we'll get what we deserve, though not what we need."

- Salem Statesman Journal, May 2, 1991

Courage

Paul Tsongas has courage. He began his campaign for the Democratic Presidential nomination at the height of George Bush's popularity. Many praised his courage, his integrity, his ideas, and his leadership, but few thought any he had a chance. Paul Tsongas has campaigned hard; his message is being heard and welcomed, and now, Paul Tsongas is winning in many states.

Integrity

Paul Tsongas has the honesty and integrity Americans will demand from their next President. According to the *New York Times*, (January 18, 1992) "Except for Tsongas, candidates are avoiding remedies that might antagonize voters." Of all the candidates, only Paul Tsongas is willing to tackle the tough problems facing the American people today head-on. And all across America, voters are starting to realize that they can choose a President of proven integrity to lead America into the next century - Paul Tsongas.

Leadership

Paul Tsongas is the only candidate for President who tells the American people the truth about our current economic danger. Rejecting election-year gimmicks such as the so-called middle-class tax cut, Paul Tsongas has outlined specific solutions for rebuilding America's prosperity and economic greatness.

The Tsongas Economic Battle Plan

- encourage real long-term investment in U.S. manufacturing, agriculture, and technology;
- restore our competitive edge by making education and workforce training once again a top national priority;
- stop unfair foreign competition without resorting to harmful "Hoover protectionism";
- control spiraling health costs and guarantee equal access by making private insurance competitive and comprehensive;
- end unfair bank foreclosures on small businesses, farmers, and homeowners.

Protecting the Environment

Paul Tsongas is a strong defender of both jobs and the environment - and he has the record to prove it. Paul Tsongas led the fight for the Alaska Lands Act that created the Arctic Wildlife Refuge - perhaps the greatest conservation bill of the 20th century. When Congress held its very first hearings on the danger of global warming, Paul Tsongas was in the chair. That's why the League of Conservation Voters gives Paul Tsongas the highest rating of any Presidential candidate.

Personal Statement by Paul Tsongas

Dear Oregon Voter:

On Tuesday, May 12, you have a choice. By voting in the Oregon Primary, you will choose the next President of the United States.

I want to take this opportunity to tell you exactly why I am running for President. I believe I can give our nation the leadership we need so desperately - and I am asking for your person support in my quest to restore America's economic greatness.

If you want gimmicks like quick fix solutions or 98 cents per day tax cuts, I am not your candidate for President. But if you want a President who is unafraid to tell to the American people, a President who will work to create new jobs and new opportunities, a President who cares about the lives and the future of average Americans - then I am the candidate for you.

I believe in America. I believe in our people, and our potential. There is no reason why we cannot restore America's economic prosperity and greatness. We've done it before, and we can do it again.

What America needs today is leadership. We need a President with the courage, the integrity, and the ideas to stand up for our economy, our values, and our future. With your help, I can be that President.

Sincerely,

Paul E. Tsongas

P.S. If you would like a copy of my book, *A Call to Economic Arms*, outlining how I will lead our nation as President, please contact the Paul Tsongas for President National Headquarters, 2 Oliver Street, Boston, Massachusetts 02109.

United States Senator

LES AuCOIN

OCCUPATION:
United States Representative from Oregon.
OCCUPATIONAL BACKGROUND:
Administrator, Portland architectural firm, 1973-74; Administrator, Pacific University, Forest Grove, 1966-73; Reporter, *The Oregonian*, 1965-66; News Editor, *Redmond Spokesman*, 1960.

EDUCATIONAL BACKGROUND: B.A. and Honorary Doctor of Laws, Pacific University; Graduate, Redmond High School, 1960.

PRIOR GOVERNMENTAL EXPERIENCE: Elected to Oregon House of Representatives, 1970; re-elected 1972; House Majority Leader, 1973-74; Elected to U.S. Congress, 1974; re-elected 1976-90.

LES AuCOIN: GETTING THINGS DONE, RIGHT.

"Les AuCoin's persistence, imagination and growing clout have made him the most powerful member of the Oregon Housing delegation and one of the most influential members from the Northwest."

—*The Oregonian*, June 13, 1988

LES AuCOIN: FIGHTING FOR OREGON JOBS

As the only Oregonian on the House Appropriations Committee, where federal investments are made — or denied — AuCoin has had a key assignment in helping build our economic future. He is a strong protector of Oregon's vital interests at a time of intense competition for limited funds. And he'll continue that role for Oregon as a United States Senator, the kind of senator who'll roll up his sleeves and go right to work in our interest.

"...he has played a major role in Oregon's slow, but steady, economic comeback."

—*Newberg Graphic*, October 19, 1988

LES AuCOIN: VISION FOR OREGON'S FUTURE

AuCoin's vision is to make Oregon a world-class center for research and technology, a leader in resource management, and an aggressive trading partner. He's proven his ability to achieve results for Oregonians whose jobs depend on timber, agriculture, fishing, tourism, trade and high tech. He'll be a strong, vocal and effective voice for Oregon in the United States Senate.

"...it should be obvious to all that Les AuCoin is nothing less than a very important element in our economy."

—*Daily Astorian*, November 13, 1990

LES AuCOIN: GETTING PRIORITIES RIGHT

AuCoin believes the economic growth of Oregon, and the nation, requires us to rearrange priorities. He is committed to:

- Cutting the military budget by 60% over the next five years, saving \$1.1 trillion.
- Investing that \$1.1 trillion savings in job training, education, deficit reduction, transportation, rebuilding infrastructure and research and development.
- Restructuring the anti-savings, anti-investment tax code, and fighting for a civilian research venture program that helps spur innovation, new products and new companies for a revitalized America.

"AuCoin issued an economic call to arms...the kind of solid thinking that we expect to hear from a senator."

—*Daily Astorian*, January 13, 1992

LES AuCOIN: PRO-CHOICE

AuCoin is the pro-choice House leader who put together the historic House victories over rape and incest restrictions, reversing 10 years of anti-choice dominance in the House. He believes in using government to open doors of opportunity, and to tear down barriers based on racial, religious or sexual factors. He has also fought against cutbacks in student aid, and is a leading proponent of expanded AIDS research and education. He'll continue that fight in the United States Senate.

"Abortion rights leadership falls to Les AuCoin"

—*The Register-Guard*, Eugene, December 9, 1989

LES AuCOIN: HEALTH CARE IS AN AMERICAN RIGHT

And AuCoin believes it should be an affordable American right, one that allows all Americans decent, affordable health care at a reasonable cost. AuCoin believes that wringing the bureaucratic waste out of the current health care system alone could save billions of dollars, and by instituting a single-payer system, Americans could avail themselves of the kind of decent, quality health care they expect — and deserve.

LES AuCOIN: PRESERVING PRICELESS RESOURCES

AuCoin is an architect of every major federal environmental bill affecting Oregon over the past decade. He helped write and pass the Oregon Wilderness Bill, the Columbia River Gorge Protection Act, and the Oregon Wild and Scenic Rivers Bill.

LES AuCOIN: FIGHTING DRUG WARS

On his first try, AuCoin came within eight votes of shifting nearly a billion dollars from the \$3.5 billion Star Wars program to Drug Wars. So he then shifted \$500 million into the Coast Guard budget — a major boost for drug interdiction efforts. He won funds for neighborhood policing, tied down \$510,000 in start-up money for cleaning up Oregon's clandestine drug labs, and will continue to fight for stronger anti-drug action as a United States Senator.

United States Senator

**BOB
BELL**

OCCUPATION:
Unemployed Timber Worker; fulltime candidate for US Senate.
OCCUPATIONAL BACKGROUND:
Timber Worker.
EDUCATIONAL BACKGROUND:
High School; One year of College, Classes at Linn-Benton College.
PRIOR GOVERNMENTAL EXPERIENCE:
None.

MEMBERSHIPS AND BOARDS: Life Member NRA; Life Member/VP Oregon State Shooting Association; 24 years a Union man/Trustee for Local 2942.

Bob Bell is not a politician, he could be just like you or I; in his own words "I'm as common as dirt". He is a workingman who through no fault of his own is without work. A man who loves the splendor that is Oregon; its mountains, forests and peoples. A man who won't sit idly by wringing his hands in the face of injustice or stupidity. This race for the senate is not about dreams of grandeur, power or position; its about getting involved, raising your voice, getting involved stopping and thinking about the world around you.

GUNS AND HUNTING: When objects are attacked and the blame is not placed where it belongs, on the individuals perpetrating the crimes the whole of society loses.

As a sportsman who has climbed mountains, hunted, and fished in every corner of the state Bob wants to see the state and federal lands remain open to responsible users. Bob supports the passage of hunter protection laws to prevent the harassment of hunters afield. He is also aware that it is hunters dollars that support the lions share of game and non-game management, and millions of acres of wildlife habitat. And, to that end he would support legislation to prevent the diverting of these hunters dollars away from wildlife management into general funds.

TIMBER AND FARMING: Everytime a raw log leaves the state a job goes with it. The world wants and needs Oregon timber. We need to add value, create jobs, and export more finished lumber and wood products. We need to allow the people who are doing the work on the land to have more control over its use.

TRADE: We should not deny ourselves the goods of the world by erecting protectionist trade barriers. We still however can and must use tariffs to prevent the dumping of products. And, we need to tighten our enforcement of US patents and copyrights.

HEALTH CARE: Bob lost his father to cancer when he was fourteen, and his mother has been in a nursing home for the past 6 years. With these experiences it is easy to see why he supports catastrophic health care plans, and the Oregon Health Plan that has been supported by Oregon Legislature since 1987.

EDUCATION: Bob's mother, and aunt were both school teachers and he reflects on the way it used to be, and wonders why it seems the schools of this nation cannot produce students who can read and write.

TAXES: Bob would like to see a fair share plan for income taxes. A sliding scale of income taxes, limiting deductions to personal, and primary residence.

CRIME AND THE BROKEN JUSTICE: Bob cannot understand why a life sentence in some jurisdictions really means 7 years in prison, while a judge appointed for life is there till they die. Bob would like to remove the judicial discretion and impose mandatory sentencing for some offenses.

WOMANS RIGHTS: Women have the right to be free from fear; if that fear caused by not being able to go out at night, or by fear of losing a job because of sexual harassment in the work place, they have the right to redress. They also have the right not to continue a pregnancy.

DEFENSE: The world is changing, the Soviet Union has broken up, we no longer have the same enemies we did a year or 6 months ago. But we still must maintain a realistic defense position. Much has been said of the peace dividend, there is no redemption center where we can trade a B-52's for social progress. And, with the downsized military asking people to leave we do owe these men and women more than our thanks.

GUN CONTROL: We must place our thinking on Crime Control. Bob would like to see a nation wide system for instantaneous background checks for firearm purchases.

GAY RIGHTS: Like every member of this nation gays have rights, their lifestyle however grants them no extra ones.

WHY I'M RUNNING: Why is an out of work timberworker with no political experience running for the US Senate? Well I'm mad! I'm mad when a twenty year career political is incapable of defending the timber industry. If its not his job who's is it? I'm mad when this same representative sides with Handgun Control, to say that my deer rifle should be banned. I'm mad when, these folks think they can get away with writing rubber checks when I have to pay my bills on time. I'm mad when, I have to help bail out the Savings and Loans because they let them invest in fur breeding trout farms. I'm Mad and scared that the federal lands I've roamed all my life will be closed to me, and the firearms I cherish taken. Not everybody has the chance to run for public office these days, and it seems like only millionaires do. If you have read this far I think you know where I stand. I you would like to stand with me, I need your vote. Thank you.

HARRY LONSDALE

OCCUPATION: Small-businessman; Scientist.
OCCUPATIONAL BACKGROUND: First Lieutenant, U.S. Air Force, 1957-1959; Research Scientist, General Atomic Co., San Diego, California, 1959-1970; Principal Scientist, Alza Corp., 1970-1972; Visiting Research Scientist, West Germany and Israel, 1973-1974; Founded Bend Research, Inc., 1975.

EDUCATIONAL BACKGROUND: B.S., Rutgers University, 1953; Ph.D., Pennsylvania State University, 1957.
PRIOR GOVERNMENTAL EXPERIENCE: Chairman, Governor's Science Council, 1987-1991; Chairman, Superconducting Super Collider Task Force, 1987-1988; Memberships and Boards: Board of Directors, Oregon Business Council, 1985-1989; Chairman, Oregon Innovation Network, 1984-1988; Advisory Board, Oregon Peace Institute, 1986-1989; Advisory Council, Advanced Science and Technology Institute of Oregon, 1986-1989; Council, Oregon Museum of Science and Industry, 1986-1992.

HARRY LONSDALE

In 1975, businessman Harry Lonsdale began a high tech research and development company in Central Oregon with only four people and a few thousand dollars. Today, Bend Research, Inc. employs over 70 people and posts annual sales of over \$5 million. And Bend Research has provided health insurance to all its employees and their dependents since its first days in 1975.

In 1982 Harry Lonsdale was named Oregon's first Small Businessman Entrepreneur of the Year by *Oregon Business Magazine*. He served on the Oregon Business Council from 1985 to 1989. In 1987 he was appointed Chairman of the Governor's Science Council, a committee to aid existing Oregon businesses and create new light industries. He has been politically active for causes in which he deeply believes. He organized the Great Oregon Spring Cleanup, an annual citizen's program to clean up litter. He was a principal sponsor of the Oregon Rivers Initiative, which protects Oregon's pristine waterways.

Harry Lonsdale ran for the Senate in 1990, and lost a close race to Republican Mark Hatfield.

"Harry Lonsdale...is one of the few who can summon up the stomach to spit out the truth." *The Oregonian*, July 12, 1990

OREGON'S TIMBER CRISIS

The short-sighted policies of career politicians have led to the crisis in the timber-dependent communities in our state. Thousands of timber workers are out of work and our national forests are grossly mismanaged.

HARRY LONSDALE'S PLAN FOR JOBS

We must put a ban on all raw log exports immediately. With every log we send overseas, we send jobs in primary and secondary wood products out of the country.

And we need to diversify the economy in our timber towns by **keeping jobs here in Oregon.**

Harry Lonsdale will fight to cut the military budget by 50% over the next five years, and put that money into re-tooling American industry. We need to develop new technologies, so that we can create jobs and compete with Japan.

Harry Lonsdale will vote against "fast tracking" free trade with Mexico that will cost more American jobs.

HEALTH CARE FOR ALL

The U.S. has the best medical facilities in the world, and the highest medical costs. 37 million Americans have no health insurance, and 60 million others are underinsured. That's disgraceful.

Harry Lonsdale proposes to solve the health care mess by guaranteeing affordable access to quality health care for all Americans, regardless of employment status and independent of pre-existing conditions. And we must have cost containment.

CLEANING UP THE MESS IN WASHINGTON

The career politicians aren't listening to us. Who are they listening to? The special interests who feed them big money for their re-election campaigns through lobbyists and political action committees (PACs).

Harry Lonsdale says that things won't change in Washington, and we won't get our country back, until we get the special interest money out of politics. He wants to ban PAC contributions to federal candidates and provide free TV time to candidates who accept spending limits. Harry Lonsdale refuses to accept PAC money.

"Harry Lonsdale brought up valid concerns, and we don't care how much candidates are forced to squirm and explain. Much of what goes on in politics looks to outsiders like bribery..." *Statesman Journal*, Salem, February 29, 1992

WHY THE MESS?

- Why isn't there a total ban on log exports to keep jobs here in Oregon? **ANSWER: THE SPECIAL INTERESTS.**
- Why has health care become a crisis in our country? **ANSWER: THE SPECIAL INTERESTS.**
- **Why is Les AuCoin trying to convince us he's an outsider after 17 years in Washington as one of the best insiders the PAC community has ever known? ANSWER: THE SPECIAL INTERESTS.**

"I admit to being an insider," said AuCoin. "I'm a good insider." *The Oregonian*, September 18, 1991
 "Rep. Les AuCoin ranks 5th in the House in the amount of political contributions received from PACs within the last decade." *The Oregonian*, July 5, 1991

IF YOU LIKE THE MESS IN WASHINGTON, VOTE FOR THE INCUMBENTS WHO BOUNCE CHECKS AND VOTE THEMSELVES A PAY RAISE.

IF YOU WANT CHANGE, VOTE FOR HARRY LONSDALE, A MAN OF INTEGRITY.

HARRY LONSDALE:

- **FOR A TOTAL BAN ON LOG EXPORTS.**
- **FOR A WOMAN'S RIGHT TO CHOOSE.**
- **FOR MANAGING OUR ENVIRONMENT.**
- **FOR A NATIONAL HEALTH CARE INSURANCE SYSTEM.**
- **FOR CAMPAIGN REFORM AND HONESTY IN GOVERNMENT.**

JOE WETZEL

OCCUPATION:

Tax lawyer, Wetzel DeFrang & Sandor, Portland, Oregon.

OCCUPATIONAL BACKGROUND:

Tax lawyer: Private law practice limited to tax planning for small businesses and individual clients, and defense of criminal and civil tax cases brought against the taxpayer by the government.

EDUCATIONAL BACKGROUND:

Bachelors degree in history, Muhlenberg College, 1966; Law degree, Temple University School of Law, 1969.

PRIOR GOVERNMENTAL EXPERIENCE: Trial lawyer, Office of Chief Counsel for the Internal Revenue Service, 1969-1974.

JOE WETZEL HAS BEEN AN OREGON TAX LAWYER FOR 22 YEARS.

HE KNOWS WHAT PACKWOOD HAS DONE TO WORKING OREGONIANS — AND HE KNOWS HOW TO FIX IT.

Joe Wetzel will work on issues important to Oregonians:

HONESTY IN GOVERNMENT

- Joe Wetzel will not accept Political Action Committee (PAC) money or out of state contributions.
- 2 year term limits are necessary, nation-wide, to clean out lifetime politicians.
- Limit House and Senate candidates to contributions from within his or her own state.

INCOME TAXES

- Restore interest deduction for individuals. Would apply to purchase of cars, trucks, home appliances, other consumer goods, school tuition loans, and tax debts.
- Eliminate taxes on unemployment compensation. It is not right to tax those who can least afford it.
- Restore tax deduction for contributions into individual retirement accounts (IRAs) up to \$3,000. Allow no-penalty withdrawals for disability, retirement, purchase of first home, and school tuition.
- Restore timber capital gains tax rate for timber companies to help Oregon's timber industry retain jobs.
- Restore the investment tax credit to businesses for purchase of new equipment. This will aid small businesses and create jobs.

Joe Wetzel is dedicated to repealing the harmful provisions in the 1986 tax act. As a lawyer and tax

expert, Joe Wetzel is uniquely qualified to restore fairness and equity to the tax system. Joe Wetzel is the candidate Oregon needs to get the burden of taxes and the federal deficit off the backs of the middle class.

SOCIAL SECURITY

- Congress is taking the reserve money out of the social security trust fund to pay for the federal deficit. This must be stopped to protect benefits for the disabled and retired.
- Invest the social security trust fund into the private economy to create jobs and protect future benefits.
- Lower social security (FICA) tax rates for the middle class. This will increase take home pay to help working families.
- Eliminate the burdensome income tax on social security benefits for those whose income is under \$100,000.

HEALTH CARE

- Extend federal medicare health coverage to all Americans who can not get health insurance.
- Provide tax credits to help small businesses which provide health insurance to their employees and employees' family.
- Require large corporations to provide health insurance to their employees and employees' family.

Adequate health care is the right of every citizen. Joe Wetzel will work to see that every American has adequate health care without allowing the federal government to make our health care decisions for us.

JOBS

- Increase investment in job creating projects by restoring the savings incentives in individual retirement accounts, pension plans, and business investments.
- Amend the Endangered Species Act so that jobs and economic factors are given equal weight with environmental considerations. We must protect the environment, but only after people's livelihood is assured.
- Halt the movement of sawmill jobs overseas by prohibiting raw log exports.

FOREIGN AFFAIRS

- Close obsolete and unpopular military bases abroad.
- Limit foreign aid to former Communist countries. American needs for education, health care, and jobs must come first.
- Increase pressure on trading partners to remove restrictions on American exports of agricultural products, finished wood products, and other manufactured goods.

Now is the time to get the career politicians out of Washington, D.C.

Now is the time to elect a person out of the community to represent Oregon in the United States Senate.

Now is the time to vote for Joe Wetzel.

"AN HONORABLE MAN."

"DEFAZIO ALONE IN REJECTING PAY INCREASE."

- *Daily Astorian*, December 31, 1990

When Congress increased its own pay by 30 percent, Peter said, "No thanks." He returns a portion of his paycheck to the federal Treasury each month to reduce the national debt. And he uses another part of his pay raise to fund a scholarship program for dislocated timber workers in southwest Oregon.

"DEFAZIO'S POPULIST, ACTIVIST APPROACH HAS LANDED HIM SOME SIGNIFICANT ROLES ON ISSUES OF VITAL CONCERN TO THE NORTHWEST."

-The 1992 edition of *Congressional Quarterly's Politics in America*

FIGHTING TO KEEP OREGON JOBS IN OREGON—Peter DeFazio has been the leader in the battle against log - and job - exports from the Pacific Northwest. Two years ago, his legislation permanently banning log exports from state and federal lands was signed into law. This year, he is pushing a bill to keep more logs here at home by giving tax advantages to private timberland owners who sell their logs to domestic mills.

FEDERAL INVESTMENT MEANS ECONOMIC GROWTH—Our future productivity depends on sound investment **today**. Thanks to Peter DeFazio, last year's federal highway and mass transit bill - paid for by **our** gas taxes - contains millions of dollars for important projects here in Oregon. That means new jobs today and greater productivity in the future.

"DEFAZIO HAS BATTLED FOR BETTER FOREST MANAGEMENT PRACTICES WHICH WOULD RESULT IN MORE JOBS IN OREGON LUMBER AND PLYWOOD MILLS."

- *Oregon Teamster*, March 28, 1991

PROTECTION FOR FORESTS AND FAMILIES—Peter DeFazio supports a balanced legislative solution to the crisis in Oregon's forests. It's not likely to please the most impassioned advocates on **either** side of this increasingly bitter debate. But his approach is precisely what our forests and our communities need.

"DEFAZIO BACKS LEGISLATION FOR NATIONAL HEALTH CARE."

- *Umpqua Free Press*, October 31, 1991

Peter has always believed health care ought to be a **right**, not a privilege. He's backing a bill to create a national health insurance system that would provide decent health care for **every** American.

"DEFAZIO INTRODUCES BILL TO RESTORE VETERANS BENEFITS."

- *Drain Enterprise*, November 28, 1991

"DEFAZIO ASKS ACTION ON 'NOTCH' LEGISLATION."

- *Curry Coastal Pilot*, October 6, 1991

Peter is committed to serving the needs of Oregon's veterans and senior citizens.

The Social Security "notch" unfairly reduces benefits for millions of retired Americans. Peter DeFazio is leading an effort in Congress to reform the "notch" and protect Social Security and Medicare benefits for present and future retirees. And he's sponsoring efforts to improve veterans medical care and repeal a punitive new prescription drug copayment.

PETER DEFAZIO, A LEADER WITH "THE MIND OF A PROGRESSIVE, THE HEART OF A POPULIST AND THE POCKETS OF A FISCAL CONSERVATIVE."

- *Pacific Northwest Magazine*, July, 1990

THE COLD WAR IS OVER—But you wouldn't know it by listening to the budget debates in Congress. Peter DeFazio supports overseas troop cuts and elimination of unnecessary weapons systems like the B-2 "Stealth" bomber and Star Wars. He's working to bring home a real peace dividend for the American people.

TAKE THE CREDIT CARD AWAY FROM UNCLE SAM—Peter supports a balanced budget amendment to the U.S. Constitution. He is convinced that America's economic future depends on sound fiscal policy today.

FREE AND FAIR TRADE—Peter DeFazio supports legislation to stop unfair foreign trade practices in wood products, construction and other services.

FOR OREGON'S ENVIRONMENT—Peter is fighting for a sensible national energy policy that puts conservation and renewable energy resources first. He supports legislation cracking down on polluters and toxic chemicals. He's fighting to protect Oregon's magnificent rivers and fisheries.

COMMITTED TO PEACE AND JUSTICE, AT HOME AND ABROAD—Peace has come to El Salvador, yet the administration is pushing for more military aid for that tiny war-torn nation. Peter is leading the effort in Congress to stop **all** military aid to El Salvador and support regional efforts for peace.

FULL AND EQUAL RIGHTS FOR EVERY ONE OF US—Peter DeFazio supports a woman's right to choose. He is a cosponsor of the Equal Rights Amendment. He helped pass two important new civil rights laws - the Civil Rights Act of 1990, which will reverse recent Supreme Court decisions weakening the nation's civil rights laws, and the Americans with Disabilities Act, which protects people with disabilities from discrimination.

"IN PETER DEFAZIO, OREGON'S 4TH CONGRESSIONAL DISTRICT HAS A HARD-WORKING, ISSUE ORIENTED-REPRESENTATIVE WHO DESERVES RE-ELECTION."

- *The Oregonian*, October 30, 1990

Representative in Congress ^{5TH} DISTRICT

MIKE KOPETSKI

OCCUPATION: U.S. Congressman.
OCCUPATIONAL BACKGROUND: Vice-president of a Salem communications firm; Oregon State Representative; Community coordinator, Oregon Law-Related Education Project; Administrator to Oregon Legislative Committees; Consultant on business, education and labor/management issues; Investigator/writer for the U.S. Senate Watergate Committee.

EDUCATIONAL BACKGROUND: Juris Doctor, Northwestern School of Law, Lewis and Clark College (1978); B.A., The American University, Washington, D.C. (1971); Pendleton High School (1967).

PRIOR GOVERNMENTAL EXPERIENCE: Oregon State Representative, 1985-89; Administrator to Oregon Legislative Committees; Investigator/writer, U.S. Senate Watergate Committee; Former member of Oregon Child Care Commission.

PERSONAL: Born in Pendleton, Oregon, October 27, 1949; he and his wife, Linda, own their own home in Salem; his son, Matthew, is 15.

COMMON SENSE VALUES

Born and raised in Eastern Oregon, Mike Kopetski understands hard work. His father lost his job due to a plant buyout when Mike was 13. One of five children, Mike and the family pulled together, went to work and were able to overcome hard times. Mike worked his way through high school, college and law school—in construction, at a woolen mill and in canneries.

The common sense values that Mike learned growing up remain with him. As a young investigator on the historic Watergate Committee, Mike learned the importance of honesty and integrity in politics; as a State Representative for four years Mike worked hard to help create opportunities for Oregon's families; and as a businessman Mike knows what it means to balance budgets and create jobs. As Oregon's newest Member, Mike takes to the Congress a renewed sense of energy, integrity and commitment to those values which made America a land of freedom and opportunity.

REPRESENTATION THROUGH COMMUNITY INVOLVEMENT

Some politicians go to Washington and lose touch with the people who sent them there. Not Mike. He spends at least 40% of his time in Oregon meeting with people. To facilitate this he established community groups who volunteer their time and expertise in order to build communication bridges between the district and Washington, D.C. From the sheriffs to community college presidents; the peace community to agricultural, environmental and business interests; Mike is listening and learning constantly about the people, problems and successes in the district. And that's not all: he visited 22 educational institutions, held 13 town hall meetings and appeared at numerous other public forums in his first year. It takes time, commitment and caring. That's Mike.

When Mike is not in the community, his staff is. A staffer is assigned to visit each of the 15 major towns in the district every week and hold office hours. For Clackamas County residents Mike did something no other Congressman has done: he opened a Clackamas field office for them.

CONSTITUENT SERVICES

No doubt the most rewarding part of Mike's job is helping people who have problems with federal agencies. Getting pension benefits for a deserving World War I widow, helping a couple adopt a child from a foreign country or advocating for a veteran's medical coverage is important. Mike and his staff have handled over a thousand cases and inquiries.

A NEW FORCE IN WASHINGTON, D.C.

A new Member of Congress faces many challenges. Understanding the district's needs and translating those needs into a program or advocating their views in Washington is the Legislator's job. Mike's voice is being heard in Washington. That's why he was named President of the First Term Democratic Class.

A RECORD OF WORKING FOR OREGON

Mike Kopetski works for:

Education—Cosponsored full funding of Head Start; supports boosting federal funding to local school districts and giving local school districts increased flexibility; cosponsored tax deduction for student loan interest and making student loans available to all, regardless of income.

Health— Proven record assisting senior citizens and veterans in cutting through Medicare and VA bureaucratic red tape; founding member of House of Representatives Working Group on Mental Illness and Health Issues; a major contributor to health care system reform.

Jobs— Authored "progressive" capital gains legislation to boost investment and stimulate economic growth; voted for Surface Transportation Act creating 2 million jobs; voted to stimulate small business by increasing the new equipment write-off 150%.

Tax Relief— Supports middle income tax relief; cosponsored "Super IRA" legislation; voted to allow IRA withdrawals for first-time home buyers, education and medical expenses; voted for "Taxpayer Bill of Rights."

Agriculture— Supports bolstering Dairy Export Incentive Program; promoting Oregon's food processing industry—second leading employer in the 5th District—through international trade; clarified caneberry's federal disaster assistance eligibility; supports GATT "Section 22" to protect dairy farmers from heavily subsidized foreign competitors.

Safe communities— Active member of Judiciary Committee; helped draft tough Crime Bill; supports community policing; supports drug treatment and remedial education in prisons to prevent repeat offenders; supports anti-gang programs for safer schools and neighborhoods.

WHAT OTHERS SAY ABOUT MIKE KOPETSKI

"Oregon's 5th District freshman has shown savvy and impressed some veterans."

The Oregonian, May 27, 1991

"Kopetski is off to a good start as a member of Congress."

Gazette-Times, Corvallis, April 4, 1991

"Oregon's Kopetski makes his mark as congressional freshman."

The Oregonian, October 20, 1991

Secretary of State

STEVE ANDERSON

OCCUPATION:
Attorney, Salem, Oregon - Private Practice.
OCCUPATIONAL BACKGROUND:
Naval Officer - World War II (North Africa, Sicily and Italy); Farm and small town background - usual occupations; Worked through college as a direct salesman.
EDUCATIONAL BACKGROUND:
High school - Langlois, Oregon; Economics and law degrees - Willamette University.

PRIOR GOVERNMENTAL EXPERIENCE: None.

INTRODUCTION

I do not submit a picture! I am quite presentable, especially in my Copenhagen mother-in-law's hand-knitted sweaters. On a visual basis however, I cannot compete with Mary "Wendy" Roberts - a very beautiful woman, or Phil Keisling and Bob Kholos - very handsome young men. So, voters, decide on other factors.

QUALIFICATIONS FOR SECRETARY OF STATE

My legal background is a decided advantage. I was lobbyist for Common Cause in the 1973 legislature for the ethics bill. I have had substantial experience in trials involving election laws. I can perform the statutory duties very efficiently; and be an effective advocate for improvement in election laws and campaign financing.

COMMUNITY SERVICE AND AWARDS

1990 - "Wayne Morse Tiger Award" by the Oregon Democratic Party; President of Willamette University Alumni Association; Chairman, Marion County Central Committee. (Formerly State Chairman and National Vice Chairman of Young Republican Organization!); President, DVORAK International Federation; Willamette Valley Humane Society Distinguished Service Award.

POLITICAL EXPERIENCE AND CAMPAIGNS

Continuous, conscientious participation in both political parties, a Republican until 1952, when I resigned as a National Vice Chairman of the Young Republicans - protesting Joe McCarthy and Nixon. Since then, a Democrat. Precinct committeeman since 1946; Delegate to several national conventions.

CAMPAIGNS:

1990 for U.S. Senate. 1988 for State Treasurer - lost to Tony Meeker, but proved conclusively that he perpetrated a deliberate and inexcusable fraud by his so-called "Baccalaureate Bond" hype. 1980 - when I received 46% of the vote in the primary race against Al Ullman, then chairman of the Ways and Means committee. In other races, I have each time made a positive impact.

I was a prime mover in the 1972 Patsy Mink for President campaign in Oregon, and the Emily Ashworth campaign for Governor in 1978.

By participation in the affairs of a political party, any person of reasonable intelligence and good will can make a positive impact. Nowhere can citizenship be more effective.

OTHER CANDIDATES

Congress needs different types. Though he beat me in the 1990 Senate race, I favor Lonsdale over AuCoin, who professing ProChoice, supported Mark Hatfield! Lonsdale will be a stronger Senator.

The scandalous Thomas hearings showed how much we need strong women in Congress, Elizabeth Furse should be elected from her district.

On observation of both, I recommend Jan Wyers over Ted Kulongoski for Attorney General.

KIND OF CAMPAIGN

I send this letter to my primary opponents:

Mary "Wendy", Phil and Bob:
Let us join for an unusual campaign, free of the usual media gimmicks, and as frequently as possible have joint appearances. As Adlai Stevenson said, "Let us elevate and educate the voters."

TAXATION

Taxes must be based upon ability to pay, which disqualifies a sales tax, and calls for expanded tax on personal property with relief from real property taxes. "To evil falls the land of prey when wealth accumulates, and men decay."
Oregon must reinstate an inheritance tax on large estates. (This was foolishly phased out between 1977 and 1987).

SPECIAL INTERESTS

SEPARATION OF CHURCH AND STATE. The founding fathers, though differing on many issues, all disliked the intrusion of religious dogma into, or over, public affairs. Advocates for a "Christian nation", though conscientious, are misguided. Equal justice means just that - for black, white, yellow, Christian, Jew, Muslim, Atheist, etc, with no exclusions. (Three of our first five presidents were not Christian).

THE DVORAK TYPING KEYBOARD. (The world's fastest typist, Barbara Blackburn, who worked for me one year, lives in Salem). My secretaries type on a DVORAK keyboard. It is amazing, and even criminal, that we teach people still, to type on the antiquated conventional keyboard.

HEALTH. For forty years I have been a health nut, and have learned to stay healthy and active. I say, "To become ill, you must first be tired." "When in doubt, take a nap."

THE ARTS. I love to dance. Pentacle Theater in Salem is my favorite organization. My wife has a career as a singer and painter. I am a strong advocate of the arts.

ENVIRONMENT. We must not sacrifice the heritage of our children and grandchildren by exploitation of our natural resources. Other means for economic relief must be implemented.

CONCLUSION

I want to be Secretary of State, to perform the significant duties competently; to have the forum for intelligent discussion of public issues, and as a loyal Willamette University alumni, counter the political damage done by Mark Hatfield and Tony Meeker!

Respectfully submitted,

STEVE ANDERSON

Secretary of State

PHIL KEISLING

OCCUPATION: Secretary of State.
OCCUPATIONAL BACKGROUND:

Senior legislative assistant to Speaker of the Oregon House, 1985-88; journalist, 1978-84.

EDUCATIONAL BACKGROUND: Yale College, B.A. 1977; Sunset High School, 1973.

PRIOR GOVERNMENTAL EXPERIENCE: Oregon House of

Representatives, 1989-91; Chair, Legislative subcommittee on Toxic Use Reduction; Co-Chair, Joint Interim Education Committee (1990).

COMMUNITY SERVICE: Chair, Brooklyn Neighborhood Assoc., 1986-88.

SECRETARY OF STATE KEISLING: A NEW GENERATION OF LEADERSHIP

Phil Keisling is **not** a career politician. In just 3 years as a state official, his leadership has meant results for Oregon.

Since becoming Secretary of State:

- Keisling has made **aggressive performance and financial audits** of state government a top priority. He knows state government has to be more efficient with your tax dollars. He has identified potential tax savings of at least \$10 million, through increasing child support payments owed by delinquent parents; reducing improper welfare payments; and cutting building construction and furnishing costs.

- Keisling launched "Motor Voter" registration through DMV offices.

- Keisling eliminated excess managers in his own agency to expand Oregon's ability to detect fraud, cut wasteful spending, and improve government effectiveness.

"Keisling possesses the intellect and enthusiasm for solving complex problems and the personality for winning support for his ideas."

The Oregonian, October 13, 1990

RESULTS FOR OREGON

As a state legislator in 1989, Phil Keisling was a chief sponsor of successful legislation to:

- Increase child care benefits for low and middle income families.
- Sentence criminals convicted of aggravated murder to "true life" — with no parole.
- Create a forgivable loan program to encourage doctors and nurse practitioners to serve in Oregon's rural communities.
- Initiate a nationally recognized program reducing the use of toxic chemicals.

"(Keisling) has carved out a solid reputation as an intelligent, energetic and thoughtful lawmaker."

The Register-Guard, Eugene, December 27, 1990

SECRETARY OF STATE KEISLING: A RECORD OF INTEGRITY

Keisling initiated **criminal prosecution** against two elected officials for alleged violations of Oregon election law.

When the Oregon legislature failed to re-draw legislative boundary lines, Keisling had just 45 days to do the job. Keisling:

- Refused to accept contributions during those 45 days.
- Refused to discuss any back-room deals.
- Held 20 public hearings throughout Oregon.

Keisling's final plan was applauded for its integrity, and upheld by Oregon's Supreme Court.

"Keisling delivers...The end result is a redistricting plan that appears to be remarkably fair and thorough."

The Mail Tribune, Medford, August 20, 1991

"Keisling...must have done a good job...because politicians from both parties are mad at him."

Statesman Journal, Salem, August 28, 1991

SECRETARY OF STATE KEISLING: A PROVEN LEADER FOR OUR FUTURE

As our Secretary of State, Phil Keisling will continue to fight for these priorities:

- **Aggressive performance review** of state programs. An effective watchdog of our tax dollars could save hundreds of millions over the next decade.

- **Campaign finance reform** with real teeth, including contribution and expenditure limits.

- **Improved management of Oregon's lands.** As a member of the State Land Board, Keisling is urging public investment in up to 250,000 acres of timber land in need of reforestation, to create jobs today and billions of dollars in future revenues.

- **Intelligent, long term solutions** - for improving Oregon schools; promoting family wage jobs; providing basic health care to all citizens; and ensuring public services through a **fair tax system.**

"Keisling has not been around the statehouse so long that he is resigned to its limitations. With Measure 5 upon us, we especially need a new outlook in Salem...He also could be a beacon in our state government."

Daily Astorian, December 31, 1990

PHIL KEISLING: COMMITTED TO OREGON

Phil Keisling was born in Oregon and attended public schools in Beaverton. He and his wife have a one year old son, Benjamin.

"More than ever, Oregon needs leaders, at every level, who are committed to listen and make important decisions with integrity, honesty and vision."

The Oregon Secretary of State should be the leader in political election reform.

I will limit my campaign contributions to a maximum of \$100.00 dollars.

I will not accept political action committee (PAC) money.

The Secretary of State should be the political watchdog for the voters of Oregon.

I will end the practice of corporations giving free trips to elected officials out of state.

I will seek a constitutional amendment ending the free rides of incumbents who seek another political office.

If the State Treasurer or Labor Commissioner, for example, want to run for a different elected post then their tax supported salaries should be frozen. This will stop the abuse of the taxpayers paying for their campaign.

Elected officials should be prohibited from accepting any meals, gratuities, vacations, campaign contributions from registered lobbyists and their agents.

Lets make Oregon the leader in the United States in political reform.

The Secretary of State should be the umpire making clear ground rules for elected officials and voters.

We have to end greed as the number one growth industry in Oregon state politics.

Its outrageous that while many people can't even afford health care for their children....legislators are accepting free trips from the medical industry.

One major office holder has gone on four corporate-paid winter trips to Hawaii according to *The Register-Guard* newspaper story of Dec. 17, 1991.

Everyone has the right of free speech, even highly paid lobbyists, but the Secretary of State should protect the public from undue influence that corrupts legislative intent.

As a drafted Vietnam veteran, I understand how government policies can destroy the intent of democracy if the people are not fully informed and educated.

The government should not be a spy in the bedroom or dictate to women what they can or can not do with their bodies.

As a married man with three children, I would ask that all federal, state and local governments introduce a childrens impact statement (CIS) with all proposed legislation.

I am not in favor of public financing of campaigns, because no one in Oregon should have to use their tax money to support the campaigns of the David Duke types.

As Secretary of State I would institute an anti-hate strike force to visit hotspots around the state and add support to local groups. I dedicate my campaign to the memory of the late U.S. Senator Wayne Morse.

Legislative service includes: Joint Ways and Means Committee; State Emergency Board; Senate committees: Labor, Local Government and Elections; Additional governmental experience: Oregon Advisory Committee to the U.S. Civil Rights Commission; Chair, Oregon Apprenticeship and Training Council; Oregon Workforce Quality Council; past President, National Apprenticeship Program Board.

**MARY WENDY ROBERTS:
RECOGNIZED FOR HER LEADERSHIP AND COMMITMENT**

- Woman of Achievement Award, YWCA, 1990;
- Women of Achievement Award, Oregon Commission for Women, 1989;
- Outstanding Service to the Farmworkers of Oregon, Oregon Commission on Hispanic Affairs, 1989;
- President, National Association of Government Labor Officials, 1988;
- Youngest woman ever elected the Oregon legislature;
- Platform speaker at the 1980 Democratic National Convention;
- First woman Democrat elected to statewide executive office in Oregon;
- Mary Rieke Woman of the Year Award, Oregon Women's Political Caucus, 1979;

MARY WENDY ROBERTS' RECORD OF ACHIEVEMENT

MARY WENDY ROBERTS authored and sponsored Oregon's Wage Security Fund, a first-in-the-nation program guaranteeing payment of back wages to workers left jobless by business closures. Since 1985, the Wage Security Fund has paid out more than \$1.5 million in back wages owed to Oregon workers.

MARY WENDY ROBERTS sponsored Oregon's Family Medical Leave Act in 1991, which allows thousands of Oregon workers twelve weeks of unpaid leave within a two-year period to care for an ill or injured child, spouse, parent or parent-in-law. Like the pregnancy and parental leave laws for which Mary Wendy fought, the Family Medical Leave law allows workers to fulfill family responsibilities without risking their jobs.

MARY WENDY ROBERTS' leadership has put Oregon at the forefront of child labor protections. She successfully sponsored bills that toughened Oregon child labor law by imposing harsh penalties for child labor violations. Her legislation and program protecting children from exploitation in door-to-door candy sales, the "Oregon Plan" is a national model.

MARY WENDY ROBERTS continues to champion improved living and working conditions for migrant workers. After her 1984 landmark study revealed the poor state of migrant housing in Oregon, she spearheaded a coalition effort which passed migrant labor reform legislation, better protecting migrant workers.

MARY WENDY ROBERTS brought together leaders in industry and education to develop the model high school program, Roosevelt Renaissance 2000, that combines on-the-job experience with applied academics.

AS SECRETARY OF STATE, MARY WENDY ROBERTS WILL CONTINUE DOING MORE FOR OREGON

MARY WENDY WILL FIGHT TO:

• **ABOLISH CAMPAIGN WAR CHESTS.** She will work to loosen the stranglehold that money has on our political process by forcing candidates to disburse all left over campaign funds after every election.

• **CURB POLITICAL POWER BROKERS** by ending campaign contribution "pass-throughs" from one candidate to another. Voters deserve to know the real source of money flowing into political campaigns.

• **STOP POLITICIANS' "RETIREMENT ACCOUNTS"** by prohibiting candidates from keeping any contributions after leaving office. Political contributions were never meant for private gain.

• **WORK TO SHORTEN THE "CAMPAIGN SEASON"** by discouraging year-round political fundraising, which distorts our political system and can distract elected officials from doing their real jobs.

• **MANAGE YOUR TAX DOLLARS MORE EFFECTIVELY.** As Secretary of State, the state's chief auditor, **MARY WENDY** will establish a technical assistance training program, like the successful program she developed at the Bureau of Labor and Industries, to help state managers improve procedures and prevent mistakes **BEFORE PUBLIC MONEY IS WASTED** — not after.

As Secretary of State, **MARY WENDY ROBERTS** will continue to be an effective advocate for all Oregonians. She has a record of proven management skills—**doing more with less.** In thirteen years as Labor Commissioner, Mary Wendy has, with fewer employees, increased productivity while managing greater enforcement responsibilities.

MARY WENDY ROBERTS has an outstanding record of achieving legislative reform. She's earned your trust through promises kept, **DOING MORE FOR OREGON.** Mary Wendy will take that same know-how and commitment to the Secretary of State's office.

MARY WENDY ROBERTS is a fifth generation Oregonian, with family roots in Eastern Oregon and on the coast. Her statewide experience and perspective help make her uniquely qualified to serve all the people of the state.

"...Roberts and her agency have a reputation for being professional, efficient and fair. We consider her one of Oregon's outstanding leaders..."

— *The Mail Tribune*, Medford, October 3, 1990

"...Labor Commissioner Mary Wendy Roberts is responsible for important employee benefits, including the family medical leave law enacted by the 1991 Legislature. Such leadership is rare..."

— *Statesman Journal*, September 9, 1991

ELECT MARY WENDY ROBERTS SECRETARY OF STATE.

JIM HILL is the most qualified candidate in either Party

Jim Hill brings experience in both private business and government to the office of State Treasurer. Hill holds a Masters of Business Administration, law degree and a degree in economics.

Hill has served in both the Oregon House and Senate and worked in the Department of Revenue and as an Assistant Attorney General, all with distinction.

Along with his outstanding public service, Hill also maintains a successful career in private business. He currently is Corporate Accounts Manager for Latin America for Mentor Graphics in Wilsonville. Hill has held private sector jobs in marketing for a Portland construction company and as a personnel specialist for an insurance company. He knows finance, business and government.

• As Chair of the Business, Housing and Finance Committee in the State Senate, Hill drafted legislation and led the fight to pass the package of bills that saved our Veterans' Home Loan Bond Program from insolvency.

• Hill played a central role in formulating an economic growth strategy using proceeds from the state lottery.

• Hill strongly opposes any plan to use pension funds that belong to retirees to balance the state budget.

• Hill sponsored the bill to divest Oregon investments from South Africa.

JIM HILL supports planning for Oregon's future

"Oregon faces an uncertain future. That does not mean it is a bleak one, only that we must be prepared for change. The State Treasurer has a role in planning that change and in securing our economic future." **Jim Hill, March 2, Portland.**

"The overriding issue on the minds of Oregonians is the stability of their jobs and the general economic future of the state. The State Treasurer is part of Oregon's leadership on jobs and economic development." **Jim Hill, March 3, Pendleton.**

"The State Treasurer must promote a policy of aggressively seeking Oregon investments. Opportunities exist here in Oregon, not just in Tokyo, London, New York, or Chicago." **Jim Hill, March 2, Medford.**

"We have a Baccalaureate Bond Program that was designed to help Oregonians finance their children's education. I support that program. We should not only continue it but expand it. Similar bond programs should be available for education and also for retirement and to help with that first down payment on the family home." **Jim Hill, March 2, Eugene.**

"I was sent to the Senate by residents of timber-dependent communities like Mill City, Detroit and Idanha as well as West and South Salem. I know the plight of rural Oregon. I have been part of the team that has looked for solutions to the devastation in the timber economy. I am committed to maintaining the vitality of those communities. At the same time I realize that Oregon's future must include environmental protection. I have been an outspoken leader on environmental issues and have been honored for those activities. It is not a question of jobs or environment, but rather providing good jobs and a protected environment." **Jim Hill, March 3, The Dalles.**

JIM HILL is a known leader in Oregon

Jim Hill has not been afraid to take tough stands on difficult issues. He does not play hide-and-seek with voters. He means what he says.

While politicians in Oregon ran for cover, Jim Hill advanced a plan that would have met the challenge of Measure 5 and kept faith with Oregon taxpayers.

Jim Hill is committed to our open and accessible style of government in Oregon. He is known in his district for his "Eggs and Issues" public breakfasts with local residents who want to talk with him about his concerns.

Jim Hill is an 18-year resident of the Willamette Valley. His daughter Jennifer graduated from Oregon schools and is a sophomore in college.

JIM HILL will be a State Treasurer we can trust. An official we can expect to protect the security of our state's investments.

JIM HILL is the most qualified candidate for State Treasurer.

- Columbia Pacific Building Trades Council
- Amalgamated Transit Union of Oregon #757
- Longshoreman Columbia River District Council
- International Chemical Workers #109
- Metal Trades Union Council
- Shipwrights Local #611
- Eastside Democratic Club

TRADITION OF PUBLIC SERVICE

Jan Wyers' father was Hood River District Attorney. Later he was a trial judge. Wyers' mother works tirelessly in the Democratic party. His two daughters teach in public schools. Jan's wife of 32 years, Judy, is a local elected official.

THE PEOPLES' ATTORNEY

Jan Wyers has practiced law for 16 years serving individuals, professionals and small businesses. He has represented over 1,000 clients. His cases include employment discrimination, personal injury, family law, and estate work. He has won cases in Oregon's appeal courts. His clients trust him. **Oregonians will benefit from Jan Wyers' legal experience.**

STRONG LAW ENFORCEMENT

Jan Wyers will help local law enforcement fight serious crimes. Wyers will use his experience on the legislative budget committee to fight for adequate funding for law enforcement, resisting threatened Measure 5 cuts.

CRACK DOWN ON DRUGS

Jan Wyers helped author Oregon's Anti Organized Crime Law (RICO). This law empowers the Attorney General to investigate and prosecute large criminal operations. Jan Wyers is determined to **put Oregon's drug lords out of business** using strong forfeiture provisions contained in RICO.

CONSUMER PROTECTION

Jan Wyers will budget adequate staff to **crack down on telemarketing scams** and consumer frauds. He received Oregon Fair Share's Consumer Protector of the Year Award in 1984 for his successful fight against pay-by-the-minute local phone calls.

Jan's opponent moved, in less than a year, from Insurance Commissioner (where he had little success in holding down our insurance rates) to become a Director of The Associated Oregon Industries, which lobbies for legislation favorable to insurance companies.

"Kulongoski also is on the board of Associated Oregon Industries, the state's largest business lobby, and can expect strong campaign help from business interests, according to Karl Frederick, an association official." *The Oregonian*, February, 13, 1992

Oregonians deserve a higher commitment to consumer protection!

LIVING WAGE JOBS

Jan Wyers will do everything he can to provide more living wage jobs in Oregon. **Wyers knows people are hurting.** He will budget adequate staff to enforce Davis Bacon so government construction jobs will pay living wages. Child labor laws will be enforced.

WORKERS' COMPENSATION REFORM

Excessive claim denials and accusations have created a poisonous atmosphere surrounding SAIF and the entire workers' compensation system. Jan Wyers will establish a businesslike relationship with SAIF and **stop the worker bashing.**

ETHICS - OPEN GOVERNMENT

Jan Wyers will require decisions to be made in the open to insure honest government. Senator Jan Wyers fought to strengthen the Ethics Commission. Attorney General Jan Wyers will provide tougher ethics enforcement. **Public officials will obey the law or be prosecuted.**

TERM LIMITS

Jan Wyers is NOT a professional politician. He imposed a voluntary three term limit on himself by not running for reelection as State Senator in 1988. He will seek no more than two terms as Attorney General.

ENFORCE DUII: SAVE LIVES

Jan Wyers helped MADD push the strongest DUII laws in the U.S. through the Legislature in 1983. He helped draft the bill, line up votes and get it passed. **This legislation has saved many Oregon lives.**

JAN WYERS WILL FIGHT FOR YOUR INTERESTS!

- Jan Wyers for consumer protection
- Jan Wyers for stronger ethics enforcement
- Jan Wyers for good DA assistance
- Jan Wyers for affordable, effective government
- Jan Wyers for fair taxes

"...your record as a legislator and lawyer highly qualifies you to interpret and enforce the laws of Oregon in the best interests of seniors, consumers and all Oregonians."

 NOW IS THE TIME!**

NOW IS THE TIME to break with the failed policies of the past. Government spending is out of hand, while the jobless rate continues to climb. The economy stinks! And the legislature doesn't know what to do! There aren't enough jobs to go around, because their being shipped overseas.

**NOW IS THE TIME to change leadership.
 NOW IS THE TIME FOR KEITH MILLER!**

NOW IS THE TIME to put a stop to the increase of crime and drugs. Our legal system needs some special care to ensure that criminals are taken off our streets and the rights of the innocent are protected.

NOW IS THE TIME to stop the flow of drugs in Oregon.

**NOW IS THE TIME FOR KEITH MILLER!
 NOW IS THE TIME TO SOLVE TOMORROW'S PROBLEMS**

The forests are closed to our loggers because our legislature did nothing. We cannot afford "Wait and See" politics. The fishing fleet, and sport fishing will have the same fate if we re-elect the same legislature. As I said in 1990, if our legislature does nothing, we will all lose the right to fish in our streams. This is becoming a reality. We need a legislature that is willing to do their job, and take these issues seriously, regardless of whether they will be re-elected.

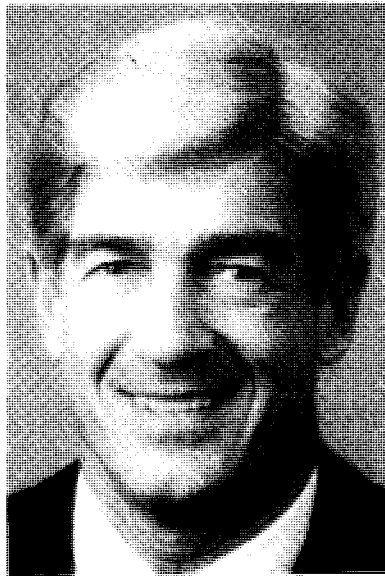

NOW IS THE TIME TO HAVE A WORKING LEGISLATURE!

CRIME IN OREGON

Our first priority must be to protect the overwhelming majority of Oregonians who are law abiding citizens. We need to continue with effective investigation, prosecution and incarceration/treatment of those who choose to engage in criminal conduct. We must place a greater focus on the rights of the victim of a criminal offense and insure that they not be victimized again by the system. By taking a hard look at the Oregon Criminal Code we can determine what type of conduct should merit criminal sanctions and what might be better dealt with by alternative means. I believe that an intelligent revision of the Oregon Criminal Code would result in a more cost effective criminal justice system in addition to improved law enforcement.

RESPONSIBLE GOVERNMENTAL SPENDING IN OREGON

Each legislator has an obligation to appropriate funds responsibly. The people of Oregon have spoken loud and clear with the adoption of measure 5 - they want government to be leaner and more efficient. I will work to see that this is accomplished in every department and office of government. I will look to discover and eliminate waste, redundancy and inessential functions at every level of state government. I will look hard at any proposal for any new expenditure. I will only support such an expenditure when I am convinced that it is an essential government service and that such service can be supported either by a new source of revenue or by cutting back or eliminating another area of government in order to free up the required revenue.

Precinct Committeeperson

DEMOCRATIC PARTY RESPONSIBILITIES

The structure of the Democratic Party of Oregon is that of a pyramid. Across the broad base, representing each precinct in Oregon and a wide spectrum of beliefs and philosophies is the Precinct Committeeperson. The grassroots people are the link between the registered Democrats in a precinct and the Democratic County Central Committee, the Democratic Congressional District Committee, the State Central Committee, and the Democratic National Committee. The Democratic Precinct Committeepersons are also the grassroots link between the voters and the Democratic candidates and officeholders.

Specific duties of a Democratic Precinct Committeeperson include:

- 1) Serving as a sounding board for voter concerns and representing the Democratic philosophy within the Precinct Committeeperson's neighborhood.
- 2) Serving as a member of the Democratic County Central Committee. The County Central Committees elect the members of the Congressional District Committees and the State Central Committee. The State Central Committee elects State Party officers and Oregon's members of the Democratic National Committee.
- 3) Helping to elect Democratic candidates by assisting the registration of new Democratic voters and encouraging voters to vote.
- 4) Participating in the development of the County and State Party Platforms, listing the beliefs of Oregon Democrats.
- 5) Attending a Congressional District Convention, to be held on June 13, 1992, to elect delegates to the Democratic National Convention to nominate the next President and Vice President of the U.S.

Democratic Precinct Committeepersons are the lifeblood of our Party. For our party to continue to succeed in electing Democrats, we need to ensure that the base of our pyramid structure, the Democratic Precinct Committeepersons, are active and involved.

If you are interested in becoming a delegate to the Democratic National Convention, the application below must be received by the Democratic Party of Oregon prior to 5:00 p.m. on May 18, 1992. United States President

PATRICK J. BUCHANAN

OCCUPATION:

Syndicated
Columnist;
Television
Commentator.

OCCUPATIONAL BACKGROUND:

Syndicated
Columnist - 1974-
1985, 1987-1991;
Commentator for
CNN and NBC -
1982-1985, 1987-
1991; Author of
three books.

EDUCATIONAL BACKGROUND:

Georgetown University, B.A., 1961; Columbia University, M.A., 1962.

PRIOR GOVERNMENTAL EXPERIENCE: Senior Advisor: President Richard Nixon (1966-1973), President Gerald Ford (1973-1974); Director of Communications: President Ronald Reagan (1985-1987).

THE ENVIRONMENT: We all want to preserve America's natural beauty. But the greatest environmental threat today is the threat the government poses to the business environment and to private property rights. We've saved the Spotted Owl, now what are we going to do about the American worker? As president, I will impose a 2-year moratorium on new regulations.

IMMIGRATION: America is the most open nation on earth for immigrants, but, each year, millions pour illegally across our southern borders, many turning to welfare or crime. We must stop this flaunting of our immigration laws; and we must bolster our traditional institutions of assimilation - our churches, schools and communities - to ensure that legal immigrants are fully integrated into American society.

GOVERNMENT: We must phase out foreign aid, which every single week drains \$300 million from the pockets of American taxpayers. We must terminate every form of government-mandated discrimination and quotas. We must stop the National Endowment for the Arts from funding pornography and anti-religious bigotry. And we must down-size the federal welfare and regulatory bureaucracies.

TAXATION: Taxation is not a question of equity between various classes of taxpayers, it is a question of justice between a parasitical political class in Washington and hard-working Americans everywhere else. As president, I will fight to make America not just the greatest business environment on earth, but the most wholesome environment for the traditional family. That means cutting, not raising taxes.

OCCUPATION:

President of the United States 1989 to present.

OCCUPATIONAL BACKGROUND:

Dresser Industries - Supply Salesman 1948-1951; Bush - Overby Oil Development Company - Co-Founder 1951-1953; Zapata Petroleum Corporation - Co-Founder 1953-1959; Zapata Off Shore - Co-Founder and

President 1959-1966; Republican National Committee - Chairman 1973-1974.

EDUCATIONAL BACKGROUND: Yale University, Graduated Phi Beta Kappa in 1948 with a degree in Economics.

PRIOR GOVERNMENTAL EXPERIENCE: United States Navy 1942-1945; Member of Congress for the 7th Congressional District of Texas 1967-1971; United States Ambassador to the United Nations 1971-1973; Chief of the Liaison Office to the People's Republic of China 1974-1975; Central Intelligence Agency - Director 1976-1977; Vice President of the United States 1981-1989.

President Bush's campaign for reelection is about change, about the simple, powerful idea that government spends too much and costs too much.

His top priority is jobs. His Economic Growth Package would stimulate our economy without raising the deficit or taxes. It cuts taxes for families by raising the personal exemption for each child \$500, gives first-time homebuyers a \$5,000 tax credit, encourages investment in plants and equipment, slashes capital gains taxes, and allows penalty-free withdrawals from IRA's for medical and education expenses. It will work without the wasteful government spending that's failed us before.

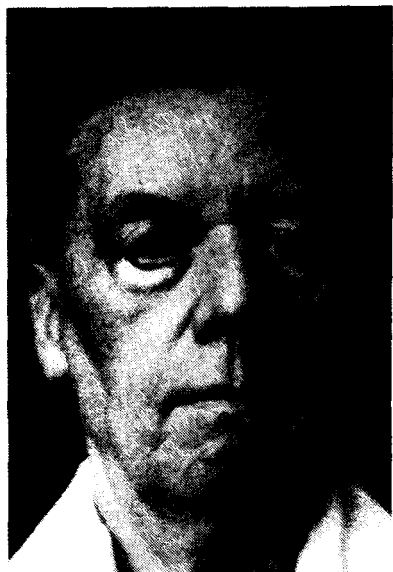

His "America 2000" Education Reforms will give parents the right to choose the schools their children attend. It emphasizes the basics, enhances local control, strengthens discipline, sets national standards in math, science and history, and encourages children to study more and learn more.

As a conservationist and outdoorsman, he takes seriously our Nation's commitment to hold the land in trust for future generations. He pushed through more environmental legislation than any President in recent history. The Clean Air Act balances jobs and the environment and uses the free market in an innovative way to improve air quality. He tripled the nation's hazardous waste clean-up effort and put a moratorium on oil drilling off the Pacific Coast.

For three years, he's fought to get his comprehensive crime package through Congress. Strong against criminals and supportive of police, it includes a major, renewed investment in fighting violent street crime, a meaningful death penalty, reforms allowing evidence gathered by police in the belief they are acting lawfully to be used, and an end to unnecessary repetitive appeals that delay justice.

You, the Voter, are familiar with conditions in this country. Should you be dissatisfied with the other candidates and their roles leading to these conditions, you might like to read and to consider my thoughts and my solutions.

Imagination — Initiative — Innovation — Fresh Eyes

There Are No Jobless Sparrows

In any society there are jobs for everyone.

After all, man has nothing but labor to trade.

Material things are but manifestations of that labor.

Money is but a medium for that trade.

NEMES, National Electronic Mathematical (Manpower) Employment System, could help all people secure satisfactory jobs. The technology has been available for more than thirty-five years. Unemployment for more than seven days for the entire nation need not be more than one-half of one per cent (50,000) for the entire country. Solve the problem of unemployment and many other problems will cease to exist. If it can be counted or measured, it must obey the laws of mathematics.

If necessary, the jobless could replace government workers beginning with those on the payroll the longest and thus most responsible for much of the problems of the country.

Anti-Bureaucracy and citizen participation is necessary for a representative democratic republic. No one has the right to feed at the public trough forever. No one should be on the public payroll more than five years out of any consecutive fifteen. Nor should any government pension exceed that available to taxpaying citizens. In-training would lead to faster promotions and better chances for better jobs on leaving.

Fundamentally, laws are to protect the citizen—primarily from the tyranny of governments. When something is done for one, something must be done to another. Complicated laws are bad laws. No person need be subject to more law than can be well printed in easily readable type, bound well on good paper, understood by any high school student, and carried three utility pole lengths by a normal five year old child.

I propose to take the government out of the hands of the few and return it to the hands of the people. To insure this end, I propose a Graduate School of Politology to educate and to train people from all walks of life for responsible effective elective office.

I propose to replace the insult to all Americans autocratic monarchical judicial system with its foxes and jackals guarding the henhouse, featherbedding, split families and friends system with a refereed arbitration and negotiation system designed to bring people together. It is illogical to expect decisions to be fair and honest by suppressing knowledge and evidence. Judges and lawyers, as officers of the court, should not be allowed to use their privileged positions to harass citizens.

I propose a single Federal probate system to be entered by choice of the decedent selected executor most of whom are once in a lifetime amateurs trying only to help an old friend or relative. They should be treated as such with compassion.

Citizens have the right to ask of the government anything for which they are willing to pay increased taxes. Pride dictates that no person should expect another to pay his bills, nor should he be expected to pay another's bills. All should be treated equally. All taxes should consider inflation.

Health & Economic Assurance are effective solutions to life's emergencies. Insurance companies are in the business of **NOT** paying claims. Who ever heard of a government program that did as much and cost as little as when first offered? My health plan would use **NEMES** to help people pay their own bills. My plan would begin with three books in every home on prevention and self-help. Loans, backed by life insurance and **NEMES**, could be made. Extension could be to homes, cars, and family farms.

Napoleonic touches are needed to reduce health care. I propose a tax-free one hundred million (or a billion) dollars to be reduced one-tenth each year to whomever comes up with a full complete instantaneous end to dental decay. Government would only coordinate activities and exert quality control.

Incontinence programs could halve nursing home occupancy. Save \$\$\$\$.

Timberers are hoaxed by plans to cut down our Oregon heritage. **NEMES** and true Economic Development R & D could give them real security and a better life. No one should cut down a tree older than his own great grandparents. Synthetic wood? Laugh not. Wood from air, water, catalysts, and a little sunlight.

State Militias confined to Oregon service could be used to resolve emergencies such as earthquakes, tidal waves, forest fires, floods, riots, infestations, and crowded court dockets.

Children are being cruelly and immorally cheated of their best middle years by keeping them in rompers. They could learn more in at least three years less time, pay their own education expenses thus really reducing taxes, and end up with a new car and money in the bank, and have less stress in the process.

Let's have a little perestroika (restructuring) and Glasnost (openness) of our own. Only one other nation-government lasted longer than ours and it vanished long long long ago. Pride!!!

Opportunity taps lightly. It doesn't kick in the door.

BOB PACKWOOD

OCCUPATION:

United States Senator from Oregon.

OCCUPATIONAL BACKGROUND:

Practiced law in Portland, 1958-1968.

EDUCATIONAL BACKGROUND:

B.A., Willamette University, 1954; LL.B., New York University School of Law, 1957.

PRIOR GOVERNMENTAL EXPERIENCE:

Oregon House of Representatives, elected 1962, 1964, 1966; United States Senate, elected 1968, 1974, 1980, 1986.

TOUGH TIMES DEMAND A TOUGH LEADER

"Bob Packwood's not your typical politician. He's not afraid to take on seemingly hopeless crusades, if he's convinced it's best for Oregon. Look at the log export ban he passed. While other Oregon politicians were trying to come up with the perfect compromise that would have made the bill meaningless, Bob just took over. The bill he passed saved hundreds of jobs in Lane County." - Steve Cornacchia, Lane County Commissioner, Eugene.

"Putting Oregonians to work is Bob Packwood's top priority. Our aluminum plant had been standing idle for months, employing no one, and would have stayed that way if Bob hadn't helped out. He got us an even break on electric rates from the bureaucrats and now 500 Oregonians are back at work." - Brett Wilcox, Owner Northwest Aluminum, The Dalles

"Even though I'm retired, I still believe I can be a productive member of our state's workforce. But when the government takes away my Social Security if I work, I don't think that's fair. Bob Packwood agrees, and he's fighting to change the law so seniors like me can keep being productive citizens." - Norma Purdy, Dairy Queen employee, Beaverton

"Bob Packwood is the leader on the health care issue. He's the only one who's offered a plan that solves the problems of access and cost control. No one else will even offer specifics." - Juan Prats, Publisher, *Hispanic Times*, Portland

"Senator Packwood es el líder en emitir el cuidado de la salud. El es el único quién ha ofrecido un plan que soluciona los problemas de acceso y control de costo. Nadie más ofrecería algo tan característico." - Juan Prats, Publisher, *Hispanic Times*, Portland

"International driftnetters were stripmining our oceans until Bob Packwood stopped them dead in their tracks. Now dolphins and seabirds are safe, and Oregon salmon have a better change to return to our rivers." - Jerry Bates, Depoe Bay Fish Co., Newport

"Some elected officials in Oregon don't even know where towns like Sumpter, Adel, Prineville, Oakridge and Adair Village are. Bob Packwood covers thousands of miles in our state every year to make sure all Oregonians have a chance to talk with him. He's not just another Portland politician. He's the Senator for all of Oregon." - Dick Hoppes, Crook County Judge, Prineville

"Bob Packwood has a long record of accomplishments on behalf of Oregon small business. He understands that small businesses are the backbone of Oregon's economy, and battles so they have a chance to prosper." - Guss Dussin, President, OSF International, Inc., Portland

"Farmers have a champion in Washington, D.C. Bob Packwood can always be counted on to put Oregon's interests first. He's fought to knock down trade barriers in Korea for Oregon potato farmers, in Scandinavia for apple and pear growers and in China for wheat growers. He's very tough when Oregon's interests are at stake." - Andy Anderson, Executive Vice President, Oregon Farm Bureau

"Bob Packwood recognized a long time ago the economic importance of our ports to the success of coastal communities, and has battled to help us improve port facilities around the state. When we call on Bob, he responds." - Paul Vogel, General Manager, Port of Coos Bay

"Bob Packwood fights for the working men and women of Oregon. While others ride the fence, or try to have it both ways, Bob Packwood has been the leader in support of a balance between jobs and the spotted owl." - Paul Morehead, Western Council of Industrial Workers, Joseph

Industrial work.

EDUCATIONAL BACKGROUND:

PRIOR GOVERNMENTAL EXPERIENCE: None.

RANDY PRINCE FOR U.S. SENATOR
HE STANDS FOR WHAT YOU BELIEVE IN

HEALTHY FORESTS AND NEW WOOD PROCESSING JOBS

For years the Pacific Yew tree was burned as trash on National Forest clearcuts. Now it is in short supply as a life-saving cancer cure. I favor a conservative forest policy. We must not measure a forest's value by its log output, nor fail to protect its biological diversity.

Replacing native forests with tree farms damages soil, endangers our water supply and leaves woodlands vulnerable to fire and disease. For a steady flow of forest products, we must conserve and sustain old growth forests, and keep them close to their natural state. We need not clearcut.

Many Oregon communities depend on wood products for a living. The federal forests were to provide the timber but they will no longer. Oregonians are left without jobs. We must not fail them.

This transition requires patience and a willingness to look beyond the old jobs. We should favor labor-intensive secondary wood processing. Oregon can manufacture modular homes, hardwood furniture and specialized building components. The Japanese will buy metric lumber from us, and twice the workers will work each log processed for that market. These are ways to **get more jobs from each tree.**

EASTERN OREGON

One of the most beautiful landscapes on earth is facing destruction by high-impact gold mining. The 1872 Mining Act permits powerful mining interests, many foreign-owned, to employ massive rock crushers, cyanide and financial giveaways to pursue the most marginal ore deposits. The land, our sacred heritage, is destroyed.

Some mining claims return double the cost of extraction; no royalties are collected. I would impose a penalty for each ton of natural rock disturbed. Those who would destroy Oregon's mountains for a few flecks of gold should be dissuaded. Minerals are non-renewable and mining is economically non-sustainable.

ECONOMIC DIGNITY

Our future requires a different tax philosophy. We must avoid taxing labor, commerce, homes and productive investments. I favor a \$50,000 property tax exemption for improvements to land.

As taxation ceases, government must also stop giving away the commons. We must collect equitable fees for the use of god-given or community-created opportunities. This includes land sites, natural resources and the right to dispose of waste.

CAMPAIGN REFORM

I will not solicit donations, nor will I accept any over \$50. I will fund my campaign with personal earnings and spend no more than \$5000. I challenge all my opponents to match these limits.

Oregon has the best voter's pamphlet, an inquisitive news media and countless opportunities for the candidates to meet the people. We don't need multi-million dollar campaigns to tell us who to elect.

Let's limit terms on U.S. Congressional Committees, starting with Appropriations and the Senate Finance Committee. Not rotating the members of powerful committees means corrupt incumbents are reelected through special interest contributions.

FREEDOM

Democracy and the defense of individual liberty must be the aim of our foreign policy. We must not fail those who struggle for freedom in Kurdistan, Haiti or Tibet. We must not forget Tiananmen Square.

I support Most Favored Nation status for our friends in the former Soviet Union; oppose it for the cruel tyrants ruling China. **America must stand for freedom.**

COMMON GROUND

Making peace means more than allocating the sacrifices. The adversaries must find something to work together on. In the Middle East, people yearn for democracy.

Israel needs to uphold and respect the democratic values that caused Western nations to support her. Jailed Israeli peace activists should be released. The voters of Palestinian communities must be sovereign; their elected representatives must be respected, not deported. West Bank water must be equally shared. No nation that discriminates by race or religion can lead the way to peace.

LIFE

We must get beyond the divisive abortion debate. I will not be taking money from anyone lobbying for either side of this polarized issue.

I oppose devaluing any and all animate life, be it unborn children, dolphins and porpoises, or the spotted owl. Let us respect life and discourage its taking, but without compelling adherence to the doctrine of any one religion.

Instead of banning demonstrations and gagging the advocates of opposing viewpoints in the abortion debate, let us foster greater communication of everyone's views.

My religion tells me every child has the right to a mother. No one can compel a woman to be a mother, nor can she be barred from abortion.

CASCADIA

Each year the federal government takes a greater share of wealth from the Pacific Northwest. In return we receive fewer services, mandates for programs that have no federal funds and a continuing erosion of cherished constitutional rights.

National politics have sickened relations with our Pacific trading partners. Federal infighting has deadlocked the timber crisis. In the world market, two halves of a common region are pitted against each other by an obsolete border.

A sovereign republic encompassing British Columbia, Washington and Oregon would enjoy many friends and few enemies. People are localizing government and reaffirming democracy all over the world. It's time to start here.

EDUCATIONAL BACKGROUND: Portland State University, post-Bachelor Studies; Portland State University, Graduated 1990, B.S. General Studies; Amherst College 1981; University of Massachusetts; University of Oregon 1979-1980; Southern Oregon State College 1978-1979.

PRIOR GOVERNMENTAL EXPERIENCE: None.

It is necessary for fresh voices to join the legislative process to help pass laws that are important for our region. It is time to call an end to the continued election of incumbent congressional leaders. Oregonians should not be afraid to lose seniority in Congress. By working together, newly elected Senators and Representatives from Oregon and the Pacific Northwest region can reach across party lines to create a strong cohesive voice. Incumbent congress members have lost sight of this. Politics have become too extreme with a conservative Presidency and Supreme Court and a congress that is dominated by Democrats. A moderate Senator of the Republican party can serve as a powerful negotiating tool to help bring politics away from stalemates. I can fill this need.

Diversity is the answer to the legislative problems. The legislature can and should rotate through the intelligent population of the US. Putting fresh faces in congress would keep legislators doing the job they were elected to do and keep their obligations due to special interest contributions to a minimum.

BUSINESS AND FAMILY It is important that both business and family be represented simultaneously in Washington. As a mother and a business owner I can offer these skills.

This nation should be run more like a business. When a business runs out of money, spending is cut. But currently, the legislature spends as much as they want and they put the burden on our unborn children to repay. I am for a balanced budget. Cuts across the board are needed.

There are only 2 women in the US Senate. More women are badly needed to represent family issues in the Senate and to add diversity to the decision making on Capitol Hill. If elected, I would serve as conduit for family and middle American values in the US senate.

BIG BUSINESS I am disturbed that "Big Business" has so much influence in the decision making of the US. Their huge contributions to congressmen such as Bob Packwood are responsible for the savings and loan crisis and the continued health problems due to the tobacco lobby.

ABORTION Abortion should be avoided and the US needs to put more emphasis on education, access to affordable birth control, incentives for carrying a baby to term and easier adoption procedures. Outlawing abortion, however, will never make it disappear. It is critical to keep safe affordable abortions as an alternative in the US. Making it illegal will only serve to drag women and families down further in the economic sphere.

GUN CONTROL Here, too, outlawing guns will never make them disappear. There needs to be some middle ground between extremes. Assault rifles should be outlawed. They can kill too many, too fast. But hand guns and rifles are an important part of many people's lives and their legal ownership of as outlined in the second amendment needs to be protected.

HEALTH CARE I have no set answers to this issue. Cost benefit analysis and experimentation is necessary for all alternatives. This cannot, however, be done at the campaign level. Candidates that say they know the answer to the problem are fooling all of us. Restructuring the insurance and hospital system is likely to be too big and too slow. It might be easier to catch those who fall through the system through a sharing of the burden between employer, government funded clinics and a co-pay by the user.

THE ECONOMY AND JOBS There is only one answer to the economic problems of the US. It is export. The fiercely developing economies of SE Asia have made gigantic gains because of their export based economies. Other developed nations such as Germany and Japan owe their economic strength to export. New export oriented industry needs to be developed. Long term planning is necessary rather than short term decisions mandated by stock holders who want instant returns.

Unfortunately for the unemployed timber workers, the decision on timber has been made. Now new jobs need to be created and training made available for displaced workers in the timber, auto and steel industries.

SOCIAL SECURITY Concerns of seniors need to be addressed. Their incomes must somehow be protected from increasing taxes and inflation.

ENVIRONMENT Oregon and the United States is full of beautiful Natural Resources. The environmental concerns must be kept a constant, not something that can be changed according to the economy. If environmental issues are to be accepted, the impact on workers and business must be taken into account.

TO THE VOTER Do not let your stereo-type of a Senator keep you from voting for a good candidate. Do not be persuaded by heavy advertising. Help put Oregon on the map for having a female Senator. Say "no more" to special interests by not re-electing Bob Packwood, one of the biggest recipients of special interest funds in the history of the United States. Vote Salvey for Senate.

RICHARD L. SCHULZ

OCCUPATION:

Retired.

OCCUPATIONAL BACKGROUND:

Real Estate Sales, Supervisor and Office Manager.

EDUCATIONAL BACKGROUND:

B.S. at University of Southern California.

PRIOR GOVERNMENTAL EXPERIENCE:

Precinct Committeeman.

Sometimes I think America has become a huge insane asylum and the inmates are running the place. What kind of country have we become when its citizens are forced to protect the lives of owls and other wildlife while at the same time destroying jobs and families. Also, how do we justify the slaughter of the unborn by the hundreds of thousands?

Our crime rate is soaring, especially among the young. Can we expect anything different when they are not being taught the difference between right and wrong? A human life means nothing to these people. What our country needs is a return to morality to get us back on track. Check the record and you'll find that our decline began with the removal of God from the classrooms of America and the intrusion of the federal government into local school education.

Our country has become mired in a sea of increasing red ink. The annual interest on the national debt is costing you and I more than the entire cost of the federal government in 1973. Interest payments alone will soon become the largest item in the national budget and you will pay for it.

America's standard of living is declining. Young people can't buy their own homes; unemployment stares many in the face; starting or expanding a business has become more difficult; savings, pensions and insurance policies are eroded; increasing numbers of Americans have become dependent on government for daily necessities. And national sovereignty has been placed in jeopardy because foreign interests have purchased and continue to hold vast amounts of U.S. debt.

JOBS VERSUS OWLS

The Endangered Species Act must be repealed. We need jobs and timber now. It is obvious that compromise is impossible. The goal of the environmentalists and the federal government is complete control of the land. The intent is to socialize our economy. It's happening all over America. Remember the snail darter, the red squirrel and now the murrelet along with the owl and other excuses used to control the land. This environmental movement must be opposed wherever it rears its ugly head.

STOP FOREIGN AID

With our own national government virtually bankrupt, giving away billions of dollars to other nations is idiocy. I find no constitutional authority to give our money to foreign governments. We must demand an end to the entire foreign aid program.

GUN OWNERSHIP

Remember this. The second amendment was established to protect the people from government. I oppose any gun law or registration scheme.

TAXES

This nation needs a middle class tax cut, the cancellation of numerous anti-business regulatory agencies plus a sharp roll back in federal spending. Tax hikes are the last thing we need.

MEDICINE

We can only hope that good sense prevails before the best medical system the world has ever known is transferred into a disastrous equivalent of what our nation's schools have become. Canada has socialized medicine and it's not working. Socialism never works anywhere. Americans must reject any call for socialized medicine regardless of the label.

NEW WORLD ORDER

Preserve our national sovereignty and reject the New World Order. There would be restrictions on our freedom of movement, freedom of worship, private property rights, free speech or the right to publish. Do you want a world tax system, a world court, a world army, a world central bank, and a common world currency? Private firearms would go, along with mandatory population control and centralized control of education. We need freedom from government, not a World Gestapo.

ENDOWMENT OF ARTS

All support for the arts should be voluntary and not forced on the taxpayers.

CRIME

We need tougher sentencing, including the death penalty where warranted.

UNITED NATIONS

GET U.S. OUT! The New World order will work through the shell of the U.N. Let us never turn our military might over to the United Nations. We don't need the U.N. It needs our money and prestige.

RIGHT TO LIFE

Allowing the killing of unborn shall be forever to our shame. Stop this holocaust now. Help save a life, today.

P.O.W./M.I.A.

I will do everything possible to help find and bring home our servicemen. Let's get them home, NOW!

All my life one principal philosophy has guided me: what is right for America. As your representative in Congress I will fight to preserve your farms, your jobs, your way of life.

As your representative in Congress I will work for the interests of ALL Oregonians by:

- 1.) — Opposing renewal of the Endangered Species Act, as written.

This act reflects good, but misguided intentions — it is inflexible and as currently interpreted is a weapon directed against managed use of our resources.

- 2.) — Support President Bush's plan for health care reform.

The American health care delivery system is the most successful found anywhere in the world. It must be preserved intact. I am strongly opposed to replacing with a re-hash of either the failed British system or the failing Canadian plan.

- 3.) — Support President Bush's plan to strengthen the economy with a four-step plan:

Reducing the tax rates on Capital Gains

Investment tax credits for business, including a targeted credit for science, technology, and start-up ventures

Tax credits for first-time home buyers

Free Enterprise Zones in depressed rural and urban areas

- 4.) — Fight crime and drug use by enacting President Bush's anti -crime plan.

Stiffer penalties for drug dealers.

Concentrated efforts to eliminate gang activity.

- 5.) — Enact legislation which will preserve the rights of property owners.

Preserve water rights. They belong to the land on which they are found, or to which they are appurtenant.

Require government agencies to fully compensate land owners for any property on which they restrict either the use, development, or sale of the land to the extent of highest and best practicable use.

Oppose unnecessary environmental regulations.

Representative in Congress ^{5TH}DISTRICT

JIM SEAGRAVES

OCCUPATION:
Economist and policy analyst, retired.

OCCUPATIONAL BACKGROUND:

Professor of Economics and Business, North Carolina State University, 1956-85, doing teaching and research in agricultural production and policy, environmental economics and finance, with four of

these years as a visiting professor and researcher in Peru; Visiting professor, Montana State University, Fall 1985; and Adjunct professor of Agricultural Economics, Rutgers University of the State of New Jersey, 1986-89.

EDUCATIONAL BACKGROUND: Iowa State University, Ph.D. in Agricultural Economics, 1956; B.A. from Reed College, 1951; Oregon City High School, 1946.

PRIOR GOVERNMENTAL EXPERIENCE: College teaching and research as indicated, plus some consulting assignments for United States Agency For International Development and international organizations. U.S. Army, draftee October 1954 - August 1956, Troop Information and Education Office.

FAMILY BACKGROUND AND VALUES

Born and raised in Clackamas County, I am one of six children of Charles and Louisa Seagraves. My father is a veterinarian. He practiced for 37 years in Oregon City. I grew up helping as janitor and anesthesiologist in his office, and driving him out at night to treat cows down with milk fever. Mother was active in the League of Women Voters and many public causes. Dad will soon be 97 and May 6th is their 70th wedding anniversary. Thank God they are still healthy and enjoy gardening, fishing, raising sheep and discussing politics with me. I live in a mobile home on their farm.

I was married for 25 years to a very special college friend, Helen Leonard, and we have five children and three grandchildren. I believe strongly in marriage and families.

Other values I hold dear are based on the golden rule. I really believe that our great county is founded on this simple idea: "do unto others as you would have them do unto you." The Law — our Constitution, and laws developed by Congress and the courts — evolves under the guidance of this very natural principle.

What does it mean to say, "No person shall be...deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation."? Our Constitution also forbids retrospective laws or punishment for things that were not illegal at the time they were done. Republicans need to be vigilant in supporting these applications of the golden rule. We can't count on a Democratic Congress to do it.

REASONS FOR RUNNING

I am fortunate to be trained in a field I truly enjoy — economics. I also enjoy analyzing public policy issues, and think I'm good at it. My solutions are usually compassionate, but involve much less government regulation and helping free enterprise work. I want to use my skills to help government function better.

ISSUES

The economy: Saving and investment both need to be encouraged, and we need sound long-range policies to do this. I think that the Democratic Congress is every bit as responsible for the last tax hike and the recession as is George Bush. Frequent changes of tax laws may benefit politicians, but they are very detrimental to investment and the economy. I would restore capital gains tax rates to pre-1986 levels.

Size of Government: The main problem for our economy can be summarized with three big Democratic "O"s — Over Regulating, Over Spending, and Over Taxing.

Deficits: They are out of control. Many states have asked for a balanced budget amendment. I will initiate a realistic amendment to keep total federal debt within reasonable bounds.

Endangered Species Act: It needs to be modified. Oregon and the U.S. Forest Service have lots of ways to manage public forests so as to harvest mature trees, accommodate recreational uses, prevent serious fires, and preserve important species. Congress is the outfit that should be correcting this costly log jam.

Health Care: There are ways to let competition and consumers help reduce medical costs, and at the same time guarantee that everyone has access to high-quality care. I favor a modified Heritage Foundation plan and will be glad to send anyone a description of it. Call 631-3578.

Secretary of State

BILL KENNEMER

OCCUPATION:
Psychologist, small business owner; State Senator.

OCCUPATIONAL BACKGROUND:
College instructor; counselor; truck driver; grocery clerk; farm hand.

EDUCATIONAL BACKGROUND:
B.A., magna cum laude, Warner Pacific College; Ph.D. in Clinical Psychology, Fuller Seminary Graduate School of Psychology.

PRIOR GOVERNMENTAL EXPERIENCE: Oregon State Senator since 1987; Assistant Senate Minority Leader; Committee Assignments: Business, Housing and Finance; Telecommunications and Consumer Affairs; Education; Health Insurance and Bio-ethics; Human Resources; Energy Policy Review; Fish and Wildlife Caucus; Tourism Caucus; County Economic Development Commission; Precinct Committeeman.

BILL KENNEMER COMMUNITY LEADER

Bill Kennemer, 45, and Sherran, his wife who is a second grade school teacher, live in Milwaukie with their two teenage sons. In his practice as a psychologist, in the community, and during his 5 years as a state senator, Bill has demonstrated active involvement and commitment to making Oregon a better place for all Oregonians.

Bill Kennemer is a visible community leader, distinguished by his energy, hard work and accessibility.....

- North Clackamas Chamber Board • Oregon Trail Foundation
- Gladstone Rotary • Oregon Psychological Association
- Providence Milwaukie Hospital Foundation Board
- Mothers Against Drunk Driving • Northwest Steelheaders
- Gladstone Community Club Board • New Hope Community Church • Citizens for a Drug Free Oregon

KENNEMER EARNS SUCCESS

From his early years on a Corvallis poultry farm, Bill Kennemer has earned his success the hard way...determination, hard work and perseverance. Since Bill Kennemer had to work for everything he has earned, he does understand the importance of managing our resources and the importance of livable wage jobs. Bill feels government should serve people, not itself. Neither a career politician nor an attorney, Bill is a thoughtful citizen with solid credentials. Bill Kennemer believes in Oregon and is willing to step forward to serve the people of our state.

KENNEMER SERVES PEOPLE

Bill Kennemer listens and learns from real people. What will impress you about Bill is his willingness to listen and learn from you. He doesn't need to impress you with names of those he knows. Neither bought nor sold, Bill has a reputation in the legislature for his independence. Bill asks "What's best?" not "Who is lobbying for or against?" Fierce independence and commitment to doing what's best despite pressure - that sets Bill Kennemer apart.

KENNEMER SUBSTANCE

Bill Kennemer's public service is marked by involvement in his community. Bill understands this is how to stay in touch with people. His leadership and answers are not contrived by "conversations" or polling. Ask Bill a question, you'll get a straightforward answer. Bill won't slide out of your question with a joking or glib response. Bill Kennemer's answers are creditable, honest and direct...followed by action!

KENNEMER REAL ELECTION REFORM

Bill Kennemer proposed that the madness of exorbitant campaign spending be stopped with a voluntary spending limit. Bill Kennemer also challenged his opponent to a series of debates so Oregon voters could see the differences. Bill's opponent rejected both ideas. Of course, Bill Kennemer knows eliminating "pass throughs" and limiting contributions are good steps. He also sees value in limiting terms of office, but Bill realizes that real reform should begin at home. Bill Kennemer joins Oregonians in believing elections in Oregon should be based on communicating differences and not bought or sold!

KENNEMER HUMAN CONSIDERATION

We need Bill Kennemer's vote on the State Land Board. Bill has met with folks from all 36 Oregon counties. Bill opposes the extremists views and can be counted on to include families and their communities in the timber and water equation. Bill knows that responsible, balanced timber and agriculture policies are essential to creating and maintaining livable wage jobs and healthy communities while maintaining Oregon's livability and natural beauty.

KENNEMER STRONG ACCOUNTABILITY

With credibility and accountability at an all time low in Oregon (Remember the Archives Building?), Bill Kennemer's call for stepping up performance audits makes great sense. Bill's call for an independent statewide performance audit (rejected by the Governor) last legislative session was one of the most sensible and responsible solutions offered to date. Bill's strong record on limiting spending proves we can count on him to fulfill the Secretary of State's constitutional charge that our tax dollars be used wisely.

Secretary of State

RANDY MILLER

OCCUPATION: Vice-President, Secretary, and Treasurer, Moore Mill and Lumber Co.; lawyer; and State Representative 1983-present.
OCCUPATIONAL BACKGROUND: Elementary and community college teacher; director of management firm; Army Reserve.
EDUCATIONAL BACKGROUND: Doctor of Jurisprudence, Lewis and Clark Law School; Master

of Education, B.S. Political Science, University of Oregon; Beaverton High School.

PRIOR GOVERNMENTAL EXPERIENCE: State Representative 1983-present; Republican Leader, 1987-88; Chair, House Judiciary Committee 1991-present; Co-chair, Legislative Counsel Committee; Chair, House Subcommittee on Crime and Corrections; Special Assistant to Speaker of the House; Vice-Chair, Reforestation and Hardwoods Utilization Committee; Other Legislative committees: Rules, Operations and Reform; Agriculture and Natural Resources; State and Federal Affairs; Transportation; Legislative Counsel; Law Improvement; Rules and Reapportionment; Subcommittees on Civil Law and Judicial Administration, Family Justice, Natural Resources and Game Violations.

COMMUNITY SERVICE AND FAMILY BACKGROUND: RANDY MILLER is a lifetime Oregonian. Current and past memberships include: Oregon State and American Bar Associations, Oregon Federation of Parents and Drug Free Youth, Christie School Board and Portland State Foundations. Randy Miller is married to Gini Miller and has four children.

RANDY MILLER IS THE STRONG, INDEPENDENT LEADER OREGON NEEDS NOW

As Secretary of State, he will bring the positive changes that are needed in Oregon's Government.

"Randy Miller is clearly the best prepared Oregonian seeking the office of Secretary of State. Randy's background as a small businessman, educator, lawyer, and legislative leader make him uniquely qualified to restore integrity to this office and perform responsibly and responsibly in a way we can be proud." (Gene Saylor - *Saylor's Old Country Kitchen*)

Randy Miller's small business background has prepared him better than any other candidate in the race to be Oregon's Chief Auditor. As vice president of a small business, Randy knows what a bottom line means. He's the only candidate who has the "real world" experience needed to cut government waste.

Randy Miller is outraged at the unnecessary and wasteful fiasco of the Archives Building. Unlike the incumbent, Randy voted against this appropriation in the Legislature and believes this fiscal mess should have been prevented by the Secretary of State.

Oregon's Audits Department is under the direct supervision of the Secretary of State. As Secretary of State, Randy Miller would ensure funds are spent wisely. He's developed a comprehensive plan to reduce government waste.

Randy Miller's 5 Point plan to prevent Government Waste:

1. The Secretary of State's office will use private auditors with appropriate business experience to review projects and programs on an ongoing basis.
2. Randy Miller will establish a Budget Review Team of specialists in and out of State government to focus on specific projects and make recommendations on saving taxpayers' dollars.
3. Randy Miller will establish a toll-free "Waste" hotline, so Oregonians may call to report government waste and make suggestions for improvements.
4. All major construction contracts will be examined to determine that work is performed by the firm bidding the lowest cost.
5. Randy Miller will ask the next legislature to pass a law stipulating that all major construction projects, regardless of funding source, be voted on individually.

Oregonians are tired of inefficiencies and the waste of their tax dollars. As your Secretary of State, Randy Miller will take action to stop waste and demand accountability.

RANDY MILLER - A LEADER IN ELECTION AND CAMPAIGN FINANCE REFORM

Randy Miller will restore integrity to our election process. He has criticized the current Secretary of State for placing former Ku Klux Klan leader David Duke on Oregon's Primary ballot. Duke is excluded from ballots in 41 states, and Miller believes there is no lawful reason requiring Duke to be on Oregon's ballot.

As an attorney and chair of the House Judiciary Committee, Miller has an understanding of Oregon's election laws that no other candidate can claim.

As a leader in the legislature, Randy has fought for changes in Oregon's election system.

- Randy Miller is leading the fight for term limits. Limiting terms will restore integrity, bring "real world" experiences to government, and retire professional politicians who are more concerned with re-election than public service.
- Randy Miller was recognized by *The Register-Guard*, Eugene, when it wrote "Miller...seeks to close a huge loophole in Oregon's campaign finance law. The legislature should see that he gets to do just that." (February 21, 1991)
- Randy Miller fought for legislation to cut off campaign contributions on election day in order to insure public awareness of contributions and reduce special interests' influence.

RANDY MILLER - A STRONG LEADER WHO WILL FIGHT FOR OREGON JOBS AND OUR CHILDREN'S FUTURE

As owner of a small timber company and former educator, Randy Miller brings the broadest experience of any candidate for Secretary of State to the State Land Board. The State Land Board manages timber resources for Oregon, and the proceeds are used for the Common School Fund. Randy recognizes the need to preserve Oregon timber jobs and maximize revenue for our schools.

WHAT DO OTHERS SAY ABOUT RANDY MILLER'S RECORD?

"As an Oregon business owner, a five term legislator and chair of the House Judiciary Committee, Randy has the leadership talent for a major impact on Oregon's future." (Congressman Bob Smith)

"Miller...has been an effective and thoughtful legislator." (*The Review*, Clackamas County, November 1, 1990)

"Randy Miller will bring to this office private sector reality and public service commitment." (State Representative Larry Campbell)

The **Oregon Farm Bureau**, in their recent endorsement of David's candidacy, may have summed it up best: "We believe David Chen's experience in public finance administration over the last 20 years makes him uniquely qualified for the office. **-Oregon Farm Bureau

INTEGRITY, EXPERIENCE AND LEADERSHIP**

Throughout his career, David has been known for his honesty, integrity and competence.

As a recognized expert in public finance, he has the knowledge to manage State funds more effectively—to maximize investment returns and help strengthen Oregon's economy. And he will use his experience to bring new administrative efficiencies and to provide additional checks and balances to state government.

David is committed to take a leadership role in other areas as well, such as the State Land Board, that will help create jobs in Oregon. By using his special knowledge of the Pacific Rim, David will also work to help export more agricultural and finished products from Oregon to these markets.

**DAVID CHEN:
HE KNOWS THE BOTTOM LINE FOR OREGON**

The bottom line is this: In these times, we can't afford to elect a State Treasurer who requires on-the-job training. And that's why we need David Chen.

"I seek the office of State Treasurer with great enthusiasm, believing that my experience as a professional money manager has prepared me to meet a standard of service that Oregonians expect and deserve."

PRIOR GOVERNMENTAL EXPERIENCE: 1967-1969 - Eugene City Council; 1969-1971 - Oregon State House of Representatives; 1971-1983 - Oregon State Senate.

The respect of George's colleagues is proven by his well-earned honors and appointments:

- 1968 - Outstanding Young Man of Oregon
- 1968 - Eugene First Citizen
- 1971 - Chair, Senate Task Force on Economic Development
- 1973 - Chair, Western State's Council on Conservation of Energy

- 1980 - Vice-Chair, Willamette Valley Rail Study
- 1980 - Chair, Energy Policy Review
- 1988 - Honors Graduate Student, Phi Gamma Mu

Dear Friends:

I am running for Oregon State Treasurer because I believe my education, training, business background, and political experience as a citizen legislator, make me uniquely qualified for this job, at this time.

The State Treasurer's job is a big one. I've worked hard all my life; creating jobs, meeting payrolls, and paying taxes. I've been a productive, successful businessman, and I am a problem solver. I have the necessary energy, creativity, experience, independence and tough minded management skills that are necessary to solve Oregon's future financial needs.

One of the many duties of the State Treasurer is to manage a trust fund of over \$20 billion. Yet, a small percentage of this fund is now invested in Oregon. That's just not good enough! More money can, and must be put back into Oregon to create more jobs. I am very skeptical that we have found every opportunity for Oregon investments and I promise to creatively and carefully make every possible dollar work for Oregon.

Therefore, as State Treasurer, I would do the following:

ONE: Eliminate the position of Administrative Assistant to the Treasurer and replace it with an Advocate for Oregon Investments. He or she would institute a policy of advising the Treasurer and the Oregon Investment Council as to Oregon investments that are equal to or better than, investments outside Oregon while closely adhering to the mandates of the prudent person law (ORS 293.726). The Advocate for Oregon Investments would also promote reciprocal investments in Oregon of pension funds from other states.

TWO: I would create an Honorary Oregon Advocate Chair. An expert in Oregon investments would volunteer for a three months' period to work with the Advocate for Oregon Investments to analyze and promote investment opportunities within Oregon that meet the spirit and letter of the prudent person law.

THREE: I would seek the leadership role of Chairperson of the Oregon Investment Council. I would do this to be more directly responsible for the decisions made by the Council. The State Treasurer must carry full responsibility for the decisions and work of the Council and staff.

As the fiduciary trustee for \$20 billion of Oregon citizens' money, the State Treasurer must not allow even the appearance of a compromise of that trusteeship. Therefore, when I entered this campaign I made the following pledges:

ONE: I pledged not to accept any out-of-state or out-of-country contributions to my campaign and I challenged my opponents to do the same.

When out-of-state and out-of-country money management firms and individuals donate large sums of money to the campaign of candidates for Oregon State Treasurer, it is logical to assume they want something in return. At the very least, they expect greater access to the State Treasurer's office and the \$20 billion trust fund it controls. I believe this is wrong!

TWO: Because of the ethical questions raised, I pledged I would not accept employment with any financial institution, advisory group or investment organization during my term of office or within a five year period after leaving office. I challenged my opponents to do the same.

THREE: Because candidates for this office must be absolutely open about their finances and possible conflicts of interest, I pledged to, and did, file a complete personal and business financial statement on February 11, 1992. I challenged the other candidates to do the same.

FOUR: I pledged to limit my campaign spending, if the other candidates would do the same, to two times the Treasurer's annual salary or less. I also proposed a campaign contribution limit of \$1,000 by any Political Action Committee (PAC).

I've lived in Oregon for more than fifty years. Rhea and I have been married for 32 years and lived in the same home for 27 years. We have three children; Carol, 31; Gail, 27; and George, 17. I am running for this office because I know I can contribute to Oregon's future. I want all Oregonian's children and their children to inherit an Oregon in which they can be proud to live, with job and educational opportunities that were available to me.

If elected State Treasurer of Oregon, I have one more pledge to make . . . I WILL NOT DISAPPOINT YOU.

Sincerely,
George Wingard

RODEMAN'S PRIORITIES AS ATTORNEY GENERAL

- Providing innovative legal services to State government faced with Measure 5. Oregon's challenge in the 90's is to provide effective public services within responsible fiscal limits. As Attorney General Rich will protect the rights of citizens as state government prioritizes services.
- Supporting law enforcement efforts at the state and local level. Police officers know that criminals don't respect government boundaries. The Department of Justice must support local prosecutors when drug manufacturers and organized crime invade their communities. As Attorney General, Rich will continue to represent Oregon in our appellate courts to keep criminals in jail.
- Increasing effort to enforce child support laws to insure that Oregon's children get the food and shelter they deserve. Rich will work with District Attorneys and Human Resource staff to improve collection efforts in Oregon.
- Protecting Oregon consumers from fraudulent business practices. Citizens deserve vigilant enforcement of consumer protection laws from the Attorney General. Rich will fight deceptive practices that prey upon senior citizens, and the abuse of telemarketing that poison the trust and confidence responsible businesses need and deserve.
- Ensuring that pollution laws are fairly enforced and those who contaminate the environment pay for the cost of clean up. Rich will provide strong support to state agencies who are protecting Oregon's natural resources.

RODEMAN'S PHILOSOPHY

Rich believes the words of James Madison, "Justice is the end of government." Let's elect an Attorney General who will ensure Justice for Oregonians.

OCCUPATION:

Farmer.

**EDUCATIONAL

**PRIOR
GOVERNMENTAL
EXPERIENCE:**

State
Representative.

If you are employed
in private business
your income is

probably dropping. If you are a government employee
decreasing tax revenues threaten your income and your job.

Why is this happening? Because the United States is in a
declining economic trend as compared to Europe, Japan and
many other nations.

Our biggest problem is the professional politicians in
Washington D.C. who will vote for anything that will help get
them reelected and the massive, unresponsive bureaucracy
they have created. They are slowly squeezing the vitality out of
private enterprise, and without basic production there can't be
service jobs or revenues to support government.

Unless this excessive regulation has affected you directly you
may find this hard to believe. But just ask a farmer, a timber
worker or a fuel dealer what it means.

Better yet, read Milton Friedman's speech of June 21, 1991 to
the Commonwealth Club or get a copy of the congressional
report released (partially) the week of March 2, this year. It is
so bad that Congress won't release the full report until after
the elections.

What does this have to do with an Oregon election? Plenty.

1. We need legislators who understand the seriousness and
the scope of the problem and will try to reverse it. We
can't change national attitudes alone, but we can help.
**BUSINESS AS USUAL WILL CAUSE FURTHER
DECLINE.**
2. I was a branch manager in a large bank that had to make
cuts in spending and personnel. We still provided **MORE
AND BETTER SERVICE.** It can be done, and we need
legislators with that kind of experience. Shrinking the size
of government in response to a shrinking economy is
inevitable. Doing it wrong will bring disaster.

I will make an honest effort to deal with our problems. I hope I
have your support.

Sincerely,
John Schoon

PRIOR GOVERNMENTAL EXPERIENCE: Nine terms as State Representative from District 35.

TONY VAN VLIET was co-chair of the Ways and Means Committee in the 1991 Session and helped guide the budgets through the first wave of Measure 5 readjustments.

Since 1979 VAN VLIET has played a major role on two of the most important Ways and Means sub-committees, Education and Human Resources.

The decisions that will be made in the 1993-1995 Legislative Session will be even more critical in determining Oregon's future.

We need VAN VLIET'S experience and sensitive leadership during this important time.

What others said about him in 1989 says it best:

The Oregonian, May 9, 1989 ... "TONY VAN VLIET, R-Corvallis - The Republican ball-carrier on all budget questions, owing to his seat on Ways and Means. The respect he commands transcends party lines."

The Oregonian, June 21, 1989 ... defines the attributes of an effective lawmaker as one who has a statewide outlook, a craving to solve complex problems, who is a skillful consensus builder, and has the respect of both party caucuses. TONY VAN VLIET was one of the legislators singled out who FULFILLED that definition.

PRIOR GOVERNMENTAL EXPERIENCE:

Governor's Task Force on Immigration and Naturalization,
1987.

CAROLYN OAKLEY - COMMUNITY LEADER

Carolyn has worked hard as a leader to improve our community: LBCC Foundation Board; Albany Boy's and Girl's Club Board; Albany Christian Women's Board; Linn-Benton Salvation Army Board; Albany Hospital Auxiliary; Albany Historic Tour Committee; Stride Leadership Round Table; Albany Chamber of Commerce Board.

CAROLYN OAKLEY - PRIORITIES

Four years ago I promised to get tough on crime on drugs, hold the line on taxes, and work for additional jobs in the economy. I kept those promises.

CAROLYN OAKLEY - ON CRIME:

I co-sponsored legislation that was tough on crime, such as mandatory treatment for drug offenders, providing adult penalties for victimizing minors in distributing or manufacturing a controlled substance, requiring driver's license suspension for drug offenders, and mandating penalties for manufacturing of drugs within 1,000 feet of a school.

CAROLYN OAKLEY - ON TAXES:

We balanced the budget without raising taxes, despite the impact of Ballot Measure #5. The message from the voters is clear, "government needs to be cut back and we need to make better use of existing revenue."

CAROLYN OAKLEY ON JOBS AND THE ECONOMY:

As a small business owner and active in the local economy, I supported meaningful reform of the workers' compensation system. This proposal has dramatically increased benefits for the seriously injured worker, while reducing premium rates 15% to 20%. If we are to keep businesses healthy in Oregon, as we actively seek new businesses to improve the State's economy, we need a viable business environment that will produce solid wage jobs and keep Oregonians working.

CAROLYN OAKLEY IS WORKING HARD FOR YOU!

Precinct Committeeperson

STATE QUALIFICATIONS

At the primary election, Republican voters elect one Precinct Committeeperson of each sex for each 500 voters registered by January 31 as voters in their precinct. No person may hold this office in more than one precinct at the same time.

Those who wish to become a candidate for Precinct Committeeperson must file a declaration of candidacy with the department of county elections. No filing fee is required for this position.

Any person who has been registered as a Republican voter for at least 180 days may be elected by write-in for the precinct where they reside, or another precinct located in the same county. Write-in candidates must receive at least three votes to be declared a Precinct Committeeperson.

By the 17th day after the primary election, the county clerk will notify each newly elected precinct committeeperson. Those elected by write-in will receive an "Acceptance of Office" form which must be signed and returned not later than the 24th day after the primary election, when the term of office for all new precinct committeepersons begins.

If a precinct is combined, consolidated or abolished after a Precinct Committeeperson is elected, they will continue to serve on the County Central Committee until the next regular election.

If a Precinct Committeeperson resigns, changes residences outside the precinct, changes political party affiliation, dies or is recalled, the county clerk will remove their name from the official roll and declare the position on the County Central Committee vacant. The Committee can then select a Republican voter registered in that precinct, or residing in the same county, to fill the vacancy. The appointed committeeperson receives the same powers, duties and privileges as an elected committeeperson.

Except as provided in ORS chapter 260, a Precinct Committeeperson shall not be considered a public officer.

SPECIFIC DUTIES

Precinct Committeepersons constitute the County Central Committee of their party. This is the highest party authority in county political matters; it may adopt rules or resolutions for any matter of party government which is not controlled by laws of this state, or the state party.

Precinct Committeepersons are the voting delegates to the appropriate congressional district conventions of the major political party with which they are affiliated. Delegates to national conventions are selected at the district conventions.

An elected committeeperson who represents a precinct which is subsequently combined, consolidated or abolished shall continue to be a member of the County Central Committee until the next regular election for Precinct Committeeperson.

A vacancy in the office of Precinct Committeeperson occurs when the committeeperson resigns, changes residence outside the precinct, changes political party affiliation, dies or is recalled. When a vacancy occurs, the county clerk shall remove the name of the person from the official roll; declare that office of Precinct Committeeperson to be vacant; and notify the appropriate County Central Committee.

The members of a County Central Committee may select a member of the major political party who is registered in the precinct in which the vacancy exists, or an adjoining precinct in the same county, to fill a vacancy in the office of Precinct Committeeperson. The County Central Committee shall make written notice of the selection to the county clerk. The person so selected shall have the same powers, duties and privileges as an elected committeeperson.

REPUBLICAN PARTY RESPONSIBILITIES

Precinct Committeepersons constitute the County Central Committee of their party. They are the grassroots link between Republican office holders and candidates seeking office and the voters. The major function of a Precinct Committeeperson is to serve as a sounding board for voter concerns and represent the Republican philosophy within their neighborhood.

The specific responsibilities of a Precinct Committeeperson include:

1. Communicating to Republican office holders and candidates the political feelings and concerns of your neighbors.
2. Attending meetings, electing officers, and developing the platform – the county's list of issues and values – of your County Republican Party.
3. Helping to register Republican and encouraging voters to participate on election day. Assisting with activities promoting Republican candidates for state, local and national elected office.
4. Attending a Congressional district convention – held every four years – to select delegates to the Republican National Convention. These delegates, in turn, select the nominees for President and Vice President of the United States.

Republican Precinct Committeepersons are literally the heart of the Republican Party for the county, state and nation. Poor government is a result of good people doing nothing. Good government is the result of positive interaction between elected office holders and the general public. As a Republican Precinct Committeeperson you can facilitate good government . . . of . . . by . . . and for, the PEOPLE.

WORK EXPERIENCE. During high school, Peterson worked in a grocery store and as a milkman. During college and law school he worked as a restaurant cook, for a logging supply company, and clerked in a law office. He was a lieutenant in the USAF during the Korean War.

A lawyer since 1957, Peterson handled trial and appellate cases. In the private practice of law, Peterson knows what it is to run a business, and he spent 22 years helping people solve their problems.

Peterson has been a member of the Supreme Court since 1979. In 1983, his colleagues elected him chief justice, and re-elected him as chief justice in 1989. He stepped aside from the administrative duties of chief justice in 1991, after serving eight years, but remains on the Supreme Court as an associate justice. Peterson has been an effective judge, an effective chief justice, and continues the important work of the Supreme Court.

"By his own choice, Oregon Chief Justice Ed Peterson will become Justice Ed Peterson in September. The plus for the state is that Peterson, a respected appellate judge, will stay on the Supreme Court...Chief Justice Peterson has...earned the gratitude of all Oregonians for a demanding job well done."

The Register-Guard, Eugene, July 23, 1991

AS CHIEF JUSTICE. During Peterson's eight-year tenure:

Oregon's 36 separate "county" courts were consolidated into one integrated system

Court delay was significantly reduced, notwithstanding growing caseloads.

Uniform rules were implemented in all state courts. (Previously, each court had its own rules.)

Statewide arbitration and mediation programs flourished.

"Peterson has demonstrated his legal abilities, his aptitude for hard work, and his sound judgment...Ed Peterson is a calm, level-headed individual with a legal background and proven experience that make him highly qualified for the position."

Gazette-Times, Corvallis, October 20, 1980

"The Chief Justice is an articulate advocate for change...He has our thanks for dealing candidly with the problem and lending his support and credibility to the problem solving task."

Statesman Journal, Salem, June 10, 1984

"We congratulate Oregon Chief Justice Edwin Peterson for taking steps to reduce trial delays and relieve jammed court dockets in this state."

The Register-Guard, Eugene, January 8, 1985

"Peterson became top judge eight years ago when the state's courts were suffering docket-lock. He was able to speed case disposition and lead judges through a process to assure that future cases would be handled expeditiously."

The Oregonian, July 21, 1991

"Peterson did a fine job...He held down his regular duties, presiding over the court's own activities, participating in its deliberations, and writing some of its opinions. But in addition he presided over a massive restructuring of the state's court system, and made it work..."

The Bulletin, Bend, July 16, 1991

"Going to court is seldom pleasant. But for what it's worth, the grief is over quicker than it used to be in Oregon. For that you can thank Edwin J. Peterson...for eight years, Peterson cajoled and wheedled to speed up court dockets throughout the state. He succeeded."

The Oregonian, July 26, 1991

Former colleague Justice Betty Roberts said on February 27, 1986: "Ed, you are a great Chief Justice and I was very fortunate to be on the Court with you in that position."

Peterson has been active in reducing discrimination against women and currently heads a task force looking into the question of racial bias in Oregon courts.

Peterson has broad interests. He has been:

ABOUT THE MAN

At 17 he enlisted in the U.S. Marine Corps (Honorable Discharge, 1958) He worked in construction (Journeyman-Wood, Wire & Metal Lather) while going to college and law school. He is married to his high school friend Joanne Bybee and they have five children-Barry, Eric, Danette, Reynold and Aaron (and an increasing number of grandchildren).

Carl is active in church, a long time member of the YMCA and is an active grandpa. Before becoming a judge, he was active in the community-

- One of the founding directors and past president of the Salem City Club
- Past president of the Salem Library Advisory Board
- one of the founders and directors of the Salem Public Library Foundation
- Former Scoutmaster and Explorer Post Advisor; now Merit Badge Counselor for the Boy Scouts of America

ABOUT THE JUDGE

He likes people and he likes his work. Taxpayers are usually pleasantly surprised to find a patient, listening judge who tries to avoid technical jargon in explaining the law.

He works hard to improve the court and the tax laws. He is currently Chairman of the National Conference of State Tax Judges.

ABOUT THE COURT

"IMPARTIAL". The Tax Court is a separate, independent court, part of the judicial branch of Oregon. It is not a part of or associated with the Department of Revenue, but is a true judicial court. It seeks to render fair and impartial judgments under the law. "All proceedings before the court shall be original, independent proceedings and shall be tried without a jury and de novo." ("anew" or "afresh"). ORS 305.425

JURISDICTION. The court has exclusive jurisdiction over all questions of law and fact arising under the tax laws of the state.

REGULAR DIVISION. The regular division of the tax court is on the level of a circuit court. As in circuit court, the parties are usually represented by lawyers. Due to the technical nature of tax laws and the formal rules of pleading and evidence, taxpayers are urged to be represented by a lawyer in the regular division. Appeals from the regular division are directly to the Oregon Supreme Court.

SMALL CLAIMS DIVISION. Taxpayers may elect to come into this division if their claims are "small". In small claims, hearings are informal and no technical rules of evidence apply. You do not need an attorney and you can be assisted or represented (within limits) by people who are not lawyers. For income taxes, "small" is \$2,500 or less (exclusive of penalties and interest). For property taxes, it is small if the assessor's real market value is not more than \$125,000 on that part you want to appeal (ie. land alone, land and improvements, or just improvements).

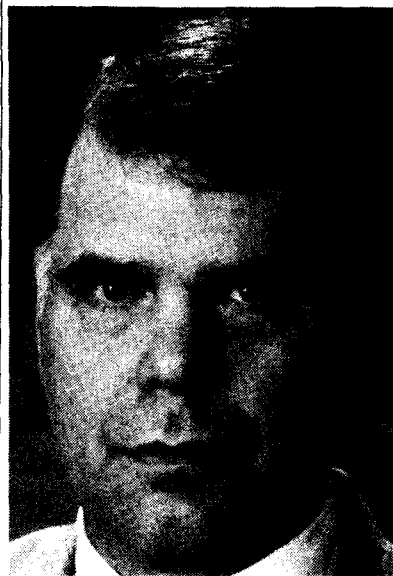

YOU CAN BE PROUD

Oregonians can be proud of their tax court. Since its establishment in 1961, it has earned nationwide recognition and serves as a model for other states.

ABSENT VOTER

You may apply for an absentee ballot from your county clerk if:

1. You are a registered voter, and
2. You have reason to believe you will be unable, for any reason, to vote at the polling place on election day.

Your application must be in writing and must include:

1. Your signature. (This is required, for comparison to your voter registration card.)
2. Your residence address.
3. The address to which the ballot should be mailed, if different from your residence.

YOUR VOTED ABSENTEE BALLOT MUST BE RECEIVED IN THE OFFICE OF YOUR COUNTY CLERK NOT LATER THAN 8:00 P.M. THE DAY OF THE ELECTION, MAY 19, 1992.

If a registered voter is physically disabled, the application is valid for every election held during the calendar year for which the application is received.

While you may apply for and receive an absentee ballot up to 8:00 p.m. on election day, if your application is received by the county clerk after May 14, 1992, the county clerk is not required to mail your ballot. If your ballot is not mailed, you must obtain it in person from the county clerk. Therefore, if you apply for an absentee ballot by mail, you must allow enough time to receive the ballot, vote, and return the ballot to the county clerk. **REMEMBER:** Your voted absentee ballot must be physically in the office of the county clerk by 8:00 p.m. on the day of the election, May 19, 1992, or it will not be counted.

LONG TERM ABSENT VOTER

You may apply for long term absent voter status with your county clerk or the Secretary of State if:

1. You are a resident of this state, absent from your place of residence, and
2. You are serving in the armed forces or merchant marine of the United States, or
3. You are temporarily living outside the territorial limits of the U.S. and the District of Columbia, or
4. You are a spouse or dependent of a long term absent voter. A spouse or dependent of a long term absent voter, not previously a resident of this state who intends to reside in this state, is considered a resident for voting purposes and may vote in the same manner as a long term absent voter.

Your application must be in writing and must include:

1. Your name and current mailing address.
2. A statement that you are a citizen of the U.S.
3. A statement that you will be 18 or older on the day of the election.
4. A statement that your home residence has been in this state for more than 20 days preceding the election, and giving the address of your last home residence.
5. A statement of the facts that qualify you as a long term absent voter.
6. A statement that you are not requesting a ballot from any other state and are not voting in any other manner than by absentee ballot.
7. A designation of your political affiliation if you wish to vote in a primary election.

The U.S. Department of Defense provides standard form 76 that complies with these requirements. It is recommended that long term absent voters use this form—available at embassies and military installations—whenever possible.

Your long term absentee ballot application will be valid for all elections held in the calendar year for which it is received.

Special absentee voting instructions and a ballot return envelope will accompany each absentee ballot.

Special Absentee Ballots: Any long term absentee voter may obtain a special absentee ballot for a primary or general election if the voter believes that:

1. The voter will be residing, stationed or working outside the territorial limits of the United States and the District of Columbia; and
2. The voter will not be able to receive, vote and return a regular absentee ballot by normal mail delivery within the period provided for absentee voting.

If you feel you may need a special absentee ballot, you should contact your county election officer for details.

REMEMBER, YOUR ABSENTEE BALLOT MUST BE RECEIVED BY YOUR COUNTY CLERK NO LATER THAN 8:00 P.M. THE DAY OF THE ELECTION, MAY 19, 1992.
